DAMAGES DUE TO EXTREME RELIGIOUS DISCRIMINATION BY KEVIN LUNSFORD AND HPD FOLLOWED BY MONTHS OF TARGETED THREATS and INTIMIDATION LED BY ARON KULHAVEY, KEVIN BAYAL AND OTHERS AT CITY HALL

On or about 7 November 2018, a gang of vandals tore down and stomped on our church's ANTI-DEATH PENALTY sign that was attached to the west facing wall of our museum at 1401 University Avenue. Although the vandalism was caught on our security camera no effort to bring the vandals to justice by HPD was made that we are aware of We believe that the criminals were associated with Chi Alpha Christian Fellowship just around the corner on 15th Street.

The vandalism occurred on 11 July, 2018 and the first theft occurred on 22 September 2018.

Later, a young man stole the sign. Our museum security guard got the license number, called the police. When I arrived at the

museum, the young man was chatting with the policemen. I asked them to take him to jail, fine him \$5 and let him go.

He had a large Christian cross dangling from his neck. The police said he didn't do anything wrong because he was a Christian.

I asked him to please explain why he stole the sign. The young man, Choo and I went into the library where the man explained that he attends Evergreen Baptist Church and all anyone has to do to go to heaven is say: "I believe in Jesus – Jesus is my savior – please forgive me."

That's all well and good if the person stops committing crimes, but it is further preached by Southern Baptists that "once saved -- always saved -- and all future sins are pre-forgiven in advance."

I then asked him if Jesus likes to execute innocent people and his answer shocked me.

He said, "yes – so that they could be with Jesus sooner."

Not believing that HPD would give the thief a free pass, I went to see Chief Lunsford to ask him to fine the thief \$5 and let him go. Lunsford told me that since I am NOT a Christian that I "am going to burn in the fires of Hell."

The "Christian Taliban" has apparently infected not only HPD but City Hall with hatred against me because of my religious views and more recently my latest book: SATAN'S GREATEST LIES and THE ETHICIAN BIBLE.

HPD has a sordid history of aggressive tactics against me including assault and false arrest. Go to www.georgerussell.net and you can see photos of the new Chief directing a team of

corrupt cops to assault me and falsely arrest me for taking photos as directed by two of my attorneys, of criminal trespass and criminal vandalism that mutilated and even killed valuable historic trees.

James and Patricia Jones had rented 1700 Avenue S for many years. On February 5, 2015 Patricia died, leaving her daughter, Heather to care for her father who wanted to die at home as did my parents.

When Heather began stealing his Social Security checks he got behind in rent and Heather had let the once beautiful home become filthy from dogs defecating on the carpets.

The house also became a hangout for sketchy people and according to HPD Heather was arrested on a drug charge and spent some time at TDCJ. After her father's death Heather became surrounded by druggies that not only invaded the house but set up a druggie camp between the house and Normal Park Drive.

HPD would do nothing about the druggies trespassing on other peoples property and stealing. Mrs. Henderson would call me in the middle of the night to complain about the druggies and I would tell her to call HPD. Mrs. Elliston loved to complain and basically told our property manager in our office that she loves to harass me. Our tenant at 1620 Woodland observed all sorts of apparent criminal behavior and called the police more than once.

Any policeman on patrol, in the middle of the night would see enough to detain drugged out invaders of the property. We were afraid to evict them for fear that they would retaliate and blow up the meth lab we suspected was in the basement.

Then with the Covid eviction restrictions we couldn't evict them.

Heather was trying to sell the contents of the house and my biggest mistake was not offering her \$20,000 dollars to pack her bags and be gone but because of her hostility, threats, and the violent nature of the druggies that had invaded the house with her blessing. I would slowly buy things that she would sell to others if I didn't immediately remove them, such as stained glass windows and large furniture.

Then things that I had already paid for burned up in the fire when two arsonists started the fire that blew up the meth lab in the basement. HPD knew who the arsonists were and even had eye witnesses but HPD has so far refused to arrest the known arsonists.

After the fire, the druggies kept going in and out of the burned out house, taking anything of value. HPD would do nothing to stop the criminal trespass and theft although there were signs expressly telling people to stay away and stay out of the house. This blatant disregard for protecting what was left of our property by HPD is just one more strike against them.

I showed a police officer some of the bongos, krak pipes and other druggie paraphernalia and asked that the owners be arrested since they would have been covered with fingerprints. He said that unless HE personally observed the druggies doing drugs there was nothing that could be done and to throw the bongos, pipes and other druggie evidence into the garbage can.

Of course the policeman was lying to me either out of universal hatred of me induced by the Christian Taliban intolerant, extremist, Chief of Police or he was too lazy to make an arrest or two which would have sent a message to the gang of druggies to stay away from the burned out house that was invaded by trespassing druggies, used as a blatant drug den and eventually was set on fire

and blew up due to HPD malfeasance, EXTREME RELIGIOUS DISCRIMINATION, and ethical bankruptcy at many levels.

Hostile druggies were threatening us at the scene of the fire the next day in front of firemen and HPD. The hostile druggie and the known arsonists should have been arrested that day but were not and are still at large as far as I know.

A State Fire Marshall came but I never saw his report. It has been my experience that State Fire Marshalls don't conduct thorough investigations. When Old Main was torched, the college already had bulldozers ready to destroy the ruins. I called the Texas Historical Commission and asked that they halt any demolition and send an investigator.

The demolition was halted, the State Fire Marshall came to the scene of the arson fire that destroyed the finest academic classroom building West of the Mississippi, according to experts from the U.S. Department of the Interior.

The Fire Marshall was on site around a half hour and retired without conducting an investigation. When our 1845 CONVIVENCIA Synagogue, Christian Church and Mosque was burned to the ground by professional arsonists, the State Fire Marshal went to the site, pulled a small drone out of a suitcase, sent it up to take a photo. He then took it down, put it back in its suitcase and drove off without conducting any genuine investigation.

By law, the ATF is required to investigate church arson fires and but they never came with sniffer dogs and other equipment to identify the volatiles used to saturate the entire building. Months later I got a call from an ATF Agent, who told me that he heard that the building burned so badly that there was nothing left to

investigate. Nonsense. Dereliction of duty as in the case of HPD intentionally failing to protect the house at 1700 Ave S. or the neighborhood from the drug gang.

After the fire the area around the burned out house was cordoned off with police tape, and orders to stay out of the house were also posted, yet HPD refused to take any of the trespassers to jail.

The City and HPD was totally liable for the destruction of the house by claiming that I was "GOING TO BURN IN THE FIRES OF HELL" because I am NOT a Christian and thus neither me or our property is worthy of protection.

Rather than taking responsibility for the destruction of our house at 1700 Ave S, HPD allowed the druggie camp to continue to operate in the Gibbs woods between our house and Normal Park and to continue to invade the burned out house.

As soon as we could, we brought in our Bobcat to start cleaning up the mess left by the fire. As we had been defrauded out of around a million dollars and \$100,000 had been stolen from us by three known individuals, making the theft a RICO crime, with a total paper trail of firm documented evidence that had been given to HPD by Aron Kulhavy. HPD has done absolutely nothing to arrest the three criminals or to recover my stolen \$100,000.
