In my opinion, Huntsville should be held liable for failing to protect our property. The history of corrupt cops who have done ZERO to protect me or our property for nearly 50 years should be cause enough to help the City responsible for our \$500K loss.

Aron:

Cops were called by neighbor (Angel) earlier today and they refused to arrest the criminals AGAIN!!!

Had the worthless cops done their job when they were called multiple times before the obvious METH LAB BLEW UP, our house would still be standing and I wouldn't not have lost \$500K!!!

One alleged witness said that a Black man had been having a major fight with his White girlfriend and he threatened to burn up her clothes, then he caught her clothes on fire and that is what burned down the house.

Burning clothes do NOT cause a major explosion!!! However starting a fire to burn up clothes could have precipitated the major fire.

ARSON, ARSON, ARSON ARSON no matter how you look at it.

Neighbor just called again and said that around 4:10 this afternoon, two people were seen in the house and he called the police. The police opened the garage door but when they left they did NOT close it.

They caught the people in the house and did NOT ARREST THEM!!!

There is tape and notices that the premises is off limits and against the law to enter yet the police do NOTHING to protect what is left of our property!!! Trespassers have been going in and out ever since the fire according to Angel.
