On 03/30/2021 at 1822hours, I checked by with Officer Walker on an unattended. When I arrived on scene I observed a white female later identified as Karen Robinson, laying on the ground. I then observed Officer Walker preforming CPR on K. Robinson. When I approached Officer Walker I observed a silver and black compact handgun with a brown wood handle laying in the vehicle's driver seat with the hammer locked to the rear. When Officer French arrived on scene I told him where the gun was and went to get Officer Walker's trauma kit out of his patrol vehicle.

After providing Officer Walker with his trauma kit I approached K. Robinson's husband, Frank Robinson. While approaching F. Robinson I observed him to be frantic and in a state of disarray. I then observed a black handgun in a holster on his right hip. F. Robinson placed his hands in the air so I could secure his handgun in the driver's seat of his vehicle. F. Robinson then advised his daughter, Grace Robinson, was on the passenger side of his vehicle. While at the passenger side of the vehicle I identified F. Robinson and K. Robinson by the provided names and dates of birth provided by F. Robinson. F. Robinson advised K. Robinson was supposed to be at his house at 1730 hours. F. Robinson stated K. Robinson and he were going through a separation but got back together Saturday. F. Robinson said K. Robinson was staying and working at 1418 21st Street during their separation. F. Robinson stated at 1800 hours when K. Robinson did not show up he started to call her with no answer. F. Robinson later stated at 1740 hours he called K. Robinson with no answer. F. Robinson said while driving to the scene he repeatedly called K. Robinson's cellphone and office phone with no answer. F. Robinson stated when he arrived on scene he jumped out of his car and started to run to the door when he noticed K. Robinson sitting in her car. F. Robinson said he broke the driver's side window of K. Robinson's vehicle with his knife. F. Robinson stated he then used his jumper cables to pull the glass back to open the door and pull K. Robinson out of the vehicle. F. Robinson said after pulling K. Robinson out of the vehicle he called 911 and attempted to preform CPR on her. F. Robinson advised he recently bought K. Incident # 21010808 (5)

FRENCH, J

This supplement was completed by Officer J. French #250.

On Tuesday, March 30, 2021 at approximately 1823 hrs I checked on scene of a possible shooting at 1420 21st Street. I arrived on scene at 1823 hrs and observed Officer Walker performing CPR on a white female on the ground next to a dark colored SUV. I also observed Officer Coffin taking photographs of the front seat area of the vehicle. At 1824 hrs Walker County EMS Supervisor D. Casburn arrived on scene. Supervisor Casburn made the determination that the victim showed no signs of life and declared the victim deceased at 1826 hrs. I went to the front seat of the vehicle and observed a small frame Kimber semi-automatic pistol lying on the front seat. I observed the hammer was cocked back; however, I could not observe the safety. I captured the weapon on my body camera prior to handling the weapon. I secured the weapon in my possession and made the weapon safe by removing the magazine and locking the slide to the rear. While clearing the weapon I observed a live round in the chamber. Once the weapon was cleared I placed the pistol on the front seat of HPD Unit 1601 which is assigned to Officer Gonzales. At approximately 1828 hrs I returned to the vehicle and observed a purse and cell phone. I retrieved the items looking for an identifying information on the deceased victim. I was able to locate a Texas Driver's License which identified the victim as Karen Robinson (DOB: 4/25/80). I provided the information to Supervisor Casburn and provided the license to Officer Owens. Officer Owens was also provided Robinson's cell phone and the pistol that I secured in Unit 1601. At 1853 hrs I left the scene to obtain further evidence collecting products from the police department. I returned to the scene at 1907 hrs and restarted my body camera. At approximately 1922 hrs I was at the back of my patrol vehicle and was approached by the complainant / victim's As Robinson approached me he was distraught and I husband, Frank Robinson III (DOB: could not understand what he was saying. After a couple seconds he spoke that he broke out the driver door window and pulled Karen out. He stated he was doing CPR on her and Karen's daughter walked up. Frank walked away talking with a family member that had arrived. At 1927 hrs Frank voluntarily walked up to me and provided me with his cell phone and passcode for it to be admitted into evidence after he spoke with a family friend, Bryan Cantrell. At 1931 hrs I approached Cantrell in reference to speaking with the owner of the residence, and father to Karen, George Russell, about obtaining a key or passcode to enter the residence. Russell did not have the code; however, he provided two keys to the door and verbal consent to enter the residence. I provided the keys to Detective Hammond and he attempted to open the door but was unsuccessful. I returned the keys and approached Frank about the code to enter the residence. Frank provided a number and stated if that does not work the code is in his phone. The code provided did not work so I had Officer Owens bring the phone back to the scene. I was able to obtain the passcode from the phone for the door and provided the information to Detective Hammond. Detective Hammond entered the residence as I was walking away from the door. At 1942 hrs I returned to the front door of the residence and as I entered I observed Detective Hammond reading a typed letter that was on the counter. I stepped outside and assisted the staff at Sam Houston Memorial Funeral Home with the securing of the body and allowing Russell and Frank to say a final word to her prior to be secured in the funeral home vehicle. At 2009 hrs I cleared the scene with no further involvement. A copy of my BWC and ICVS was submitted with this report.

Incident # 21010808 (7)

HAMMOND, K

SUPPLEMENT BY DETECTIVE HAMMOND / 241

03/30/21

On this date I was contacted by Corporal Tim Watson in reference to a possible suicide at 1418 21st Street, in Huntsville, Walker County, TX.

I responded to the above mentioned address and met with Corporal Watson. Corporal Watson advised that there was a deceased W/F, identified as Karen Robinson, laying on the ground near a 2020 Ford Edge. I was advised a gun was located in the vehicle and was removed and secured by responding officers. While I was speaking with Corporal Watson, I observed a W/M, later identified as Frank Robinson. I noted that Frank had blood on his face, hands and clothing. I was advised by Corporal Watson that Frank had arrived and located Karen. Corporal Watson stated that Frank allegedly broke the window on the Ford Edge and removed Karen from the vehicle and began CPR on her until Officer Caden Walker arrived on location at which time he took over CPR until EMS arrived on location. Corporal Watson advised shortly after EMS arrival they advised Karen had succumbed to her injuries. Corporal Watson advised that Karen appeared to have one gunshot wound to the left chest.

I then made my way into the incident location and began a walk-through. During my walk-through I provided Officer David Gonzales with a camera and instructed him to begin taking photographs of the incident location. I made my way to the vehicle where I observed a white sheet on the ground that was covering the body of Karen. I also observed a blanket on the ground that appeared to have blood on it, a purple Nike shoe and a set of jumper cables. I was advised by Corporal Watson that Frank allegedly utilized the jumper cables to assist in breaking the window of the vehicle. I looked into the driver's seat of the vehicle and observed blood on the back of the seat as well as a bullet hole that traveled through the entire driver's seat. I also observed a black soft handgun holder sitting in the center console area of the vehicle. I then walked around the front of the vehicle and to the passenger side of the vehicle. I noted in the front passengers seat of the vehicle and observed the seat was occupied with a blue bag. It should be noted that upon initially observing the vehicle both doors on the driver's side of the vehicle, the front passenger door and the rear hatch door were open. After observing the Ford Edge I asked if the building was Karen's residence to which I was advised it is an office however Karen had recently been staying there due to the a separation between her and Frank. I noted there was a Ring doorbell camera affixed to the front door of the residence.

After making my initial observations I made contact with Frank and requested that he consent to a gun shot residue test. Frank complied and I completed the test on his hands and secured it in my vehicle. It should be noted that I was advised Frank had put water on his hands at 1902 hours. Frank was extremely emotional during this contact and did not offer a lot of information. Frank did tell me that he had just bought her a new wedding ring at James Avery on 03/29/21 after he and Karen had finished dinner at Olive Garden. Frank stated that they had reconciled during dinner and they were going to move back in together.

After meeting with Frank, I went and met with George Russell, father to Karen. Russell stated that he had been expecting this and he was very suspicious of Frank. Russell stated that if Frank did not do this he pushed her to this outcome.

I then returned to the incident location and met with Detective Bennett, who had arrived to assist in the scene processing. We began by photographing the vehicle. During the photographing of this vehicle we began to follow the path of the bullet. I noted the bullet appeared to pass completely through the front driver's seat into the left rear passenger seat where the bullet exited into the cargo area of the vehicle. I lifted a false floor that concealed the spare tire where the bullet was located at its resting point.

After searching the vehicle it was determined that 1418 21st Street was owned by George Russell and

that Karen was residing inside the residence. At that time verbal consent was obtained from Russell to enter into the residence. Detective Bennett and I entered the residence at which we conducted a walk through with Detective Bennett photographing the residence. I noted that upon opening the door to the residence I observed what appeared to be the keys to Karen's vehicle sitting on the counter to the left of the door. Walking throughout the residence I did not observe any signs of a struggle inside the residence. I did locate several documents on one of the counter tops including a typed 4 page letter to several family members which appeared to be a suicide letter. I noted there was outgoing mail as well as a check with a deposit slip attached to it. It appeared that the items were left to be taken care of.

After completing the search of the residence I had patrol summon Pete Johnsons towing to tow the vehicle to the city impound lot.

Pete Johnson's arrived on location at which time the vehicle was secured. Pete Johnson then towed the vehicle to the city impound lot located at 448 SH 75 N. I followed the vehicle from the incident location to the impound lot where the vehicle was secured.

03/31/21

I requested the 911 recording from this incident on this date.

On this date I reviewed the letter that was located in the residence in the entirety. I noted the letter addressed the following details and people:

- · Life Insurance policies and who they were to go to.
- Second paragraph is addressed to the children.
- Third Paragraph is addressed to Mom, Dad, Jane and Andrew.
- Fourth Paragraph through the tenth paragraph is addressed to Frank.
- · Eleventh Paragraph is passwords for accounts.
- Twelfth Paragraph is an apology for leaving office and work disorganized.
- It should be noted in the 9th paragraph of the letter there are instructions for burial.

I reviewed some of Karen's phone and noted that Frank had recently found out about her relationship with Jess Dubcak. Through reading the messages between Frank and Karen it appeared that they had reconciled over the course of the weekend leading up to this date. I also accessed Karen's Ring camera application and noted there were two videos that related to this incident. One video at 1724 hours depicted Karen leave the residence and walk to her vehicle the next video activated and it depicted officer's placing tape around the crime scene.

I made contact with James Avery Jewelry store in Huntsville, TX and was advised I would be contacted back in reference to my request for video.

I was contacted by Russell and Frank on this date in reference to this incident requesting a copy of the suicide note. Russell was advising he wanted to know if there was any information about burial in the letter. I advised both Frank and Russell there was a request for a green burial in the letter that had very specific information.

On this date I requested consent to search the vehicle from Frank. Frank provided me with verbal consent to search the vehicle to continue my investigation.

I released a copy of the suicide note to Frank as well as his cell phone on this date.

I released a copy of the suicide note to George Russell on this date.

Detective Bennett and I responded to the city impound and conducted a search of the vehicle. Detective Bennett assisted by taking photographs and searching while I placed trajectory rods through the defect in the seat. I noted after placing the trajectory rods the flight path of the bullet was in a downward angle the traveled through the front driver's seat through the left rear passenger seat and into a cargo area of the vehicle. My observations were recorded by Detective Bennett with

photographs. During the search Detective Bennett located a Ruger LCP .380, a cell phone and an additional copy of the suicide note. Detective Bennett collected these items and returned them to the Huntsville Police Department. It should be noted during the search of the vehicle we did not locate the shell casing in the vehicle.

I received a call from Jason Contreras with James Avery in reference to my video request. Contreras stated that he could not send video without a subpoena however he could send me still images. I explained to Contreras that still images would be fine I was only trying to confirm a story. Contreras stated he would review the footage and send me images of what he had.

I received an email from Contreras on this date that contained 4 images that depicted Frank, Karen and their daughter were in fact in James Avery on 03/29/21.

Baker stated the male handed him his phone and he spoke with the 911 operator while the male kneeled beside Karen.

I spoke with Stacey Relko. Relko she was leaving with Baker and she heard screaming and went toward them where she observed Karen on the ground. Relko stated at that time she went and kept the child away from seeing.

On this date I received video surveillance footage from a neighboring residence. The neighbor was identified as Francois Louw.

I reviewed the video footage from Louw and I observed it pointed to the incident location however the victim vehicle was obstructed by vegetation. In the first video you can see the a person exit the victim residence at 1724 hours and then at 1725 hours you hear what sounds like a muffled gunshot. At no time during this video did I observe or hear anything around the victim vehicle.

I reviewed the second video. In this video I observed Frank arrive at the residence you then hear Frank pounding on something shouting open up repeatedly. In the video I observed Frank run into the street frantically. During the video I heard Frank speaking with 911 and also screaming. During the video I also heard what appeared to be glass breaking. During the video I heard Grace crying shouting and crying to call 911 and to help her mom. I also heard Grace make a statement that he killed her.

Frank stated that he ran over and attempted to open the door however it was locked. Frank stated he then punched the window several times however he could not get in. Frank stated he then ran out into the roadway while calling 911 due to not knowing the address or street name. Frank stated he returned to his vehicle where he retrieved a set of jumper cables and told his daughter to stay in the vehicle. Frank stated he then returned to Karen's vehicle where he used the jumper cables to bust the window out of the vehicle. Incident # 21010808 (8)

GONZALES,

REPORTING OFFICER: D.GONZALES/264

On 03/30/2021 I was ending my shift at approximately 1800 hours when I overheard a welfare call being dispatched. Very shortly after it was advised that some one had shot their self so I responded emergency traffic to assist. Upon arrival to 1418 21st St, I noticed Ofc. Walker was conducting CPR on a W/F known to me as Karen Robinson. They were on the driver side of her Ford SUV, that I noticed had a broken driver window. Ofc. Walker advised he could feel a pulse, and that she had what appeared to be a gunshot wound to the left side of her chest. I immediately removed a medical kit from my patrol vehicle and administered chest seals to the wounds. At that time it appeared to me that there was no life in her eyes so I checked for a pulse myself. I could not feel a pulse at any point of her body, and continued to check for signs of life. EMS supervisor 3310 arrived on scene about that time and connected his equipment to her. His equipment confirmed that she was deceased and called the time of death at that time. I requested the on-duty units to remove the husband, Frank Robinson, and other individuals to across the street so that I could set up caution tape to further investigate. Det. Hammond arrived about that time and I acquired a camera from him to assist with processing the scene.

I began to take photos of the area while Det. Hammond spoke with family and witnesses. I continued with photos as Det. Bennett arrived with additional equipment. Myself and Det. Bennett continued to photograph the scene and were able to later locate the projectile from the bullet in the rear of her car. It appeared that Karen was shot while in the driver seat, and the projectile passed through the front seat, rear seat, and came to rest on top of the spare tire. Det. Bennett collected the projectile and requested that I gather a GSR sample from Karen. I collected the sample from her and sealed it back into its package. I remained on scene to assist Det. Bennett and Det. Hammond while they further investigated the incident. Karen was taken off scene by Sam Houston Funeral home, and Pete Johnson towing was requested to tow the vehicle to process at a later date. I sealed the doors of the vehicle with evidence tape, and was cleared from the scene. I uploaded my body camera and ICVS to the Coban system to review as evidence.

Service Requested: Perform firearm examination

Test Methods: Physical Examination; Firearm Examination; Physical Comparison; Determination of Functionality; Product Determination; Individual Characteristics Database

Items of Evidence with Results and Interpretations

Item Description: One (1) 9mm Luger Kimber model Micro 9 Crimson 9mm Luger caliber semi-automatic pistol serial number designated by the examiner as Item 1-1A) with one (1) magazine and six (6) unfired Winchester brand 9mm Luger caliber cartridges (designated by the examiner as Item 1-1B).

Item Description: One (1) fired 9mm Luger caliber Winchester brand cartridge case (designated by the examiner as Item 1-2A) and one (1) fired copper jacketed bullet (designated by the examiner as Item 1-2B).

Conclusion: Item 1-1A functioned as expected when test fired under laboratory conditions. Three of the cartridges submitted in Item 1-1B were used during the testing.

Conclusion: Item 1-2A, the fired 9mm Luger caliber cartridge case was identified as having been fired in Item 1-1A based on the agreement of the class characteristics as well as individual characteristics.

Conclusion: The fired jacketed lead bullet, Item 1-2B, could neither be identified nor eliminated as having been fired from Item 1-1A due to insufficient agreement of individual characteristics, however there was agreement of observable class characteristics. Item 1-2B is consistent in size, weight and style with bullets commonly loaded in 9mm Luger caliber cartridges. The fired jacketed bullet could have been fired from any of the following 9mm Luger caliber pistols Accu-Match, Colt, Detonics, FMK, Storm Lake (aftermarket barrel) and Kimber. This is not an all inclusive list and should be used only as an investigative aid.

No Analysis Performed: No analysis was performed on Item 1-1B the unfired Winchester brand 9mm Luger caliber cartridges.

I have 3 life insurance policies: USAA (this goes to William), TruStage, and American General (goes to Frank & Grace).

First of all, I am so sorry to my children. I lived through so many hard times where I wanted to die, and they were the ONLY reason I stayed alive. I honestly can't believe it is coming to this now - normally I could picture my children trying to go on with life without me & talk myself out of it. I have been under so much pressure for so long, and with chronic stress and recent acutely stressful events, I am not thinking clearly at all – I don't even feel like I'm in my own body anymore. I am so broken and hollow inside - I can't even go through the usual list of reasons to not do it. This is happening in a car, so please tell Grace I got in a car accident. I never want her to think I intentionally left her without a mom (but I can acknowledge that is exactly what I am doing - and I'm so sorry baby, Mommy Is not doing well right now). Grace, I love you so much and will always be with you in spirit - I will be there with you your whole life, even though you can't see me anymore. William, if it wasn't for you, I never would have lived past 21 - you were the only thing that kept me alive so many times. You are my pride and my joy, and the best son a mother could ever ask for. Always be there for your sister. I will always be with you in spirit also. Dale, thank you for raising such a wonderful son & always being there for him.

Mom, Dad, Anne, Jane, Andrew - I'm so sorry to leave you all like this. I have been broken & struggled through my whole life. You always tried, but there's not anything more you could have done to stop me - I always told you I was fine. You know I have tried so hard & worked so hard for decades to be strong and stable and to take care of my mental health – I was doing good, but I took a sudden downward turn none of us saw coming. I love you all and I love our family. Please let conflict over old business deals go & do your best to get along with Frank for Grace's sake. Maybe this was meant to be my fate, because it will give everyone a new perspective on what is truly important and what isn't.

Frank, I love you dearly. I don't know why this finally pushed me over the edge here & I'm sorry to do this to you. I survived William being in England, and I survived 2017 when I returned to Prestige and was DEVASTATED to find out what had really been going on. I was in shock, and definitely had PTSD from my discovery of the problems that seemed to never end - a completely separate inventory list that was changed to match whatever the financials said, inventory that didn't exist, spreadsheets to keep track of advance billing on draws, Prestige funding TSM activities, and cross-borrowing. When you throw the chaos of TSM into the mix & worse yet involving my dad, I was really on the very edge of destruction back then. I think the only things that kept me alive at that time were my children and that my family cared about me and loved me so much – their intervention at Thanksgiving gave me the strength to keep going. I just wanted to sell everything we had & pay off all the business debts - what does it profit a man if he gains the whole world but loses his own soul? Unfortunately, I lost part of my soul somewhere along the way...

I decided to hang in there & help you recover the business no matter the personal toll. I was so scared of everything folding & you having to tell your business partners (your closest friends that love you and trust you the most) that you were not completely honest with them and they were signed on to something that was worse than it appeared, and now they have to pay it off. Not only that, I was afraid you would end up in prison - and I did NOT want that. So I stayed and helped to get things back to where they are now. (I want our partners to know that every time I wanted to get up and walk out of Prestige and never return, I would picture all of them, what it would do to all our families if Prestige collapsed, then sit back down, and tell myself "Take one for the team" - and I'd get back to work.)

I thought we were starting to fix our marriage in 2018 & believed we had an agreement to recover in all areas of life. It was really hard to know we had another chance to restore our marriage and it was wasted. I may not have been a great wife after that, but I was still your ride or die anyway. It didn't matter what you did or how mad I was at you, I was going to be there to bail you out time after time. I wanted you to protect me, but somehow I felt like I always ended up protecting you from yourself - and it was very, very lonely to be in that position. As for Prestige - I hated the companies, but I could never walk away without your blessing & I could never leave you hanging. I just couldn't do it even when I knew it was destroying my mental, physical, & spiritual health. Fast forward to Spring of 2019, the TSM bankruptcy, the extra \$ we borrowed and owed that I didn't know about, etc, etc. Maybe I'm fragile and vulnerable and need to be protected - but no one was protecting me then, and while I was carrying an unbearably heavy load, I took all the hits with you like a champion. I told you from Oct 2018 - Spring 2019 on, I can't be at Prestige anymore and I can't stay married to you - I can't do this anymore. I knew I was done, but you asked me to give you more time for financial recovery - and I did! I am very thankful the businesses are back in decent shape now & to the point where you can operate them without all the borrowing issues. I only mention any of this again because I want you to understand how I why I started unraveling. Hove you & I wanted to be good. You should be in the clear with the businesses now, and although it is ending this way, my mission to get you back on track was for the most part accomplished. Now, I am asking you to please be honest with yourself & with others, be kind and respectful to employees, and operate the businesses ethically. The quality of my work has not been up to my usual standards the past few months, and I'm sorry I left it that way - especially since I won't be here to train my replacement. I honestly just needed to leave Prestige a long time ago. I think I answered all the questions for 2020 taxes for the companies & I'm sorry I did not get more organized on personal taxes for 2020. (Also, please stop smoking pot & don't have it around Grace or at the house or the office.)

I know I did something very hurtful and embarrassing to you & I lied to you about it. (I'm asking you to please leave all of my mistakes at that, and don't try to dig up my skeletons – just remember the wife and mother I was before I came back to Prestige & gradually started falling apart). I am sorry - I guess lies for work blurred the line somewhere about lying to you, and it didn't seem like as big of a deal because you didn't have a problem lying to me. I know that doesn't justify my actions – two wrongs don't make a right, but at a certain point I broke - I lost myself & my faith - I didn't even know who I was anymore. I'm so sorry. You keep asking more questions I don't want to answer, and I just can't...

Please let it all go & DO NOT seek revenge. Getting revenge will solve NOTHING except get you in trouble & you need to be here for Grace. Let it go, forgive, and be here for Grace. PLEASE REMEMBER ME THE WAY I USED TO BE BACK

WHEN I WAS A GREAT WIFE & MOTHER — to be a great wife and mother was really all I ever wanted out of life. When I did what I did, I honestly felt like I was not your wife & I felt like you chose for it to be that way. I told you long ago I needed to go my separate way, and our agreement was for us to stay together long enough to help you get through financial issues – I didn't even wear a wedding ring for 2.5 years! I was angry, lonely, & hurting – and I chose it.

I was wrong for all my hurtful mistakes & I am so very sorry.

Frank, always remember I really do love you very much. I need you to stay stronger & healthier than you ever have been for Grace. Please give Laci & Ryan some land to build on at the farm, if they would like that - I need Laci to close by to be Grace's fill-in mom. And put a tiny-house next door for Paige Nelson to live in & be close to Grace – if Paige would like that. And I need Paige Miller to please be another mom for Grace also, and I know Sharon will continue to be an exceptional Nannie, and my sisters & mom of course - I am leaving her in the hands of a small army of women! Please remind Grace how much her mommy loves her, and that I am still always with her. Grace's ADD medicine is called Methylphenidate, and Dr. McKeever prescribes it now. She needs a refill at school from the bottle I just got.

Please get along with my family for Grace's sake, and put me at the green cemetery – you might have to have me refrigerated or frozen until you're ready for burial – dad will tell you. I want our just families and invitation-only for our closest-friends to attend the funeral. Please plant a dogwood tree on me & put a comfortable bench to sit next to me.

Don't feel guilty – you never wanted this to happen. In fact you were trying to help me yesterday so I would NOT do this, and I repeatedly promised you I would be fine. I honestly thought we were going to be ok, but this morning... I don't know how to get away from that guilt and shame on top of the lifetime of mistakes & regrets I already stacked up, and I'm not thinking clearly. I'm very thankful that we have both apologized, reconciled, have our wedding rings back on, cancelled our divorce, and declared our love for each other once again – I've always loved you more than I loved myself. I am still with you & supporting you - always remember that. And thank you for my new wedding ring!

Things you need to know: Grace changed my iphone password to Karen, my itunes password is JesusT4ke. (Please do not read any of my deleted messages - just remember me as the person I used to be.)

The pin # logins for my computers are 6309, the pin # for my phone account is 2288

The majority of my passwords are now 6309Wil\$ or 20K!K!LEER20, if not one of those, then try Romans828.

20KIK!LEER20 will get you into Kaspersky password manager & you should have access to pretty much all my work & personal passwords there.

I'm sorry I left my office, my work, and our bills in such a disorganized mess. I would have liked to have had it all cleaned up & organized so everything would be easier for you. Please get a really good accounting person to help Paige at work & tell Donna & my dad I am sorry I didn't make more progress on their bookkeeping.

The best person has a little bit of bad in them, and the worst person has a little good in them ~ TD Jakes

I'm sorry I wasn't better than this – please remember the good in me, and forgive & forget all of the bad.

Love covers a multitude of sins... Thank you all for loving me - especially when I did not deserve it. ~ Karen

And now I'm going to say my prayer so I can be spiritually redeemed, even though I chose this path:

Dear God, I love You so much. I am sorry I have been such a mess all my life, but you know I love You and I really wanted to be good & do the right things. I am sorry I chose this and I'm sorry for everything I left undone on earth. Please take care of all the family I left behind & give them the peace that passes all understanding. Most of all, take care of my children, William and Grace – please comfort them, protect them, and bless them beyond measure for their entire lives. Help them to feel my love and Your love at all times. I'm so sorry. I ask your forgiveness of ALL of my sins in Jesus's name, and I pray that you will lead me into Heaven now and forever with open arms.

A Karen

Frank Robinson III

This was 6 weeks after Karen died and we had gone camping. I just needed to get away so this was how we did it. Everyday was a struggle to go forward but with God and Grace by my side we got it done.

Now a year a year later we a have figured out a life together. I have learned to be not just a great dad but also a great mom and now I cannot imagine me not being both. God gives us the strength to do what we need to do if we have faith in him. I pray that everyone can have this faith when it is the hardest time to have it.

Me and my ride or die life partner. Would not trade her for anyone in the world. ***

Good morning Detective,

I just wanted to pass along this post from Frank as more evidence to be added to Karen's file that he authored/co-authored the "suicide" note found at Karen's apartment. I know I already let you know that we did not think "Ride or Die" would ever be terminology that Karen would say. My siblings and I are first generation Texans and would never talk like that. Alan Fails confirmed at our meeting in January that Karen wouldn't say that, and that he often heard Frank using that term around the office. I do not follow Frank on Facebook, so when my dad forwarded this recent post by him, I noticed that he in fact posted those exact words in his May 7, 2021 FB post, just over 5 weeks after her death.

Also, do you have any updates on the Ballistic Report and when that might be complete? The past 6 weeks have included her one year death date, what would have been her 42nd birthday, what would have been her one year divorce date, and Mother's Day. As you can imagine it has been another hard spring, and we are anxious for any news/updates.

Thank you, Jane McCullah

9 May 2022 HIGHLY CONFIDENTIAL -- FOR YOUR EYES ONLY -- FOR MY PERSONAL SAFETY (Please keep in COMPANY COMMANDER, AND SECRET mind that I was a STRATEGIC COMMUNICATIONS CRYPTO OFFICER, DOCUMENTS CUSTODIAN: 1970-1974 so understand the importance of secrecy.)

Kevin:

It took us until 15 December 2021 to track down Karen's autopsy report and now we know why it was hidden from us for 8 months. The conclusion is dead wrong. Karen was murdered plain and simple. She did NOT commit suicide. The trajectory of the bullet was such that she could not have pulled the trigger unless her right arm was severely twisted by her killer.

In my opinion she was in fear of her life and was attempting to escape with only one shoe on. She had no drugs in her system but she had suffered from 14 blunt force trauma wounds.

On 2 January 2022 I faxed my suspicions in regard to the bogus conclusion of "Suicide" and asked that Dr. Doyle change "Suicide" to either "Inconclusive" or "Undetermined".

To date Dr. Doyle has not responded although I faxed my opinion based on the facts as I either know them or my suspicions based on what little evidence was not given to her suspected killer.

Protocol was not followed:

In virtually every suspicious death of a female the killer is a husband, boyfriend, estranged husband or divorced husband, yet HPD, gave "Frank" exclusive access to our house that we had placed her in for her safety, where he had access to her files, will (if any) cell phone and computer.

That simply is not SOP. Latex gloves were discarded on the ground and never examined. Even the death car was allegedly given to Frank rather impounded for further examination.

Of course I am afraid of Frank as he checks every box that describes a Narcissistic Psychopath, and he has threatened to kill me in the past and at least two of her friends.

I provided ADULT PROTECTIVE SERVICES with a complete file of the documented conspiracy by three men to steal \$100,000 from me which is a Second Degree Felony plus being Organized Crime with three plotters involved.

APS told me that they ONLY turn the case over to local law enforcement, which I told them could be my death warrant as I believe that this theft warrants an investigation by The Texas Rangers or the FBI, as to date the DA has done absolutely nothing.

Anne flew in from California hoping to meet with the DA and ask him why there has been no progress in the case and he wouldn't meet with her because the "ballistics test" had not been completed, just as we were told for 8 months that the autopsy had not been completed, so she flew back to California.

BOTTOM LINE: I have conclusive evidence about the theft of my \$100,000, which is in addition to the million dollars we were defrauded out of. He also tricked me into going into debt to the tune of \$300,000 based on lies and false promises. (I have a paper trail to prove his con game)

Frank was given 100% of the community property and he immediately sold \$1.7 million dollars worth of it and allegedly also collected \$600,000 in life insurance. Those two red flags alone should have caused grave suspicion. Her son, William, was completely cut out of her estate

I can provide you with the same packet I provided to APS. Upon examination I believe that you will find conclusive evidence of the theft of my \$100,000 and perhaps know how to deal with arresting the three co-conspirators and locking them up so that I can feel safer.

Good morning,

Thank you for the update. I just received Karen't autopsy report yesterday, and am disturbed that she was missing a tennis shoe and the front of her shins and thighs were covered in 12 bruises. Do you have any idea why she would have only one shoe and lots of bruising?

Also, are you saying that you won't allow me to hire Lonestar Forensic phone lab to help you try to get more data evidence off the three phone downloads?

Thanks, Jane

I just wanted to check in with you about some updates on Karen's case. I know you are very busy and have many other cases, so I am trying to figure out a way I can try to help. I also know that you can't disclose everything to me as I assume this investigation in ongoing, or has it closed at this point?

LABS:

I emailed Judge Fisher with an autopsy request on 12/1. I called yesterday morning and his office said I should receive it by the end of the day yesterday, but I still don't have it as of tonight.

Can you please tell me why our family was not notified in August that you received Karen's autopsy and toxicology reports as you had planned to notify us as soon as you heard back, and why you told me in your 11/19 email that you still didn't have the labs back yet, when in fact you received two of the three reports in August?

Also, if the labs were sent to Judge Fisher on June 30, why didn't he get them to you until over a month later, in August?

Did you get a ballistic report update after I gave CSI agent M. Berry your email address on 12/1 and asked him to have the fire arms examiner email you?

SCENE EVIDENCE/DATA:

I was referred to an ex Texas Ranger private investigator in Houston. I spoke with him yesterday and he said I probably wouldn't get an approximate time of death from the autopsy report, or from Judge Fisher as you suggested, because of the time it took to transport Karen to the lab in Montgomery County. He said someone would have had to take Karen's temperature at the scene, as well as consider the outside temperature, to try to predict her time of death. (Online records show the temperature was a high of 83 degrees between 3:00 & 6:00 pm, however she was in her car but her driveway is shady.) Did anyone take her temperature at the scene to try to predict her time of death? What time did Frank claim she texted him that afternoon saying she was admiring her new wedding ring (which she would have never said)?

The PI said that since Frank found Karen, someone would have taken his clothes at the scene to test for micro blood to investigate him/try to rule him out as a suspect. (He said if Frank was with Karen at the shooting it would be assisted suicide, but if he then went home and showered and changed clothes and came back (to pretend to find her), it would be murder.) Did someone take Frank's clothes at the scene for evidence and forensic testing? If so, where can we get those results?

Taylor at the Montgomery Forensic Lab told me on 12/1 that they did not perform the gun powder residue test on Frank because you all did that at the scene. How do we get those results since they aren't included in the Montgomery Forensic Lab reports? Does the police have proof that Karen pulled the trigger on her own, and with Frank proven elsewhere? Where can we get the forensic reports on the blood splatter and bullet trajectory? What does the blood splatter indicate?

Taylor also told me that the pathologist report gives the opinion of suicide due to skin searing from the gun vs a shot from farther away. However, Frank could press a gun to Karen's skin, so I'm not sure why that was the only reason given?

PHONE DATA RECOVERY:

The PI asked where Frank was during the day? He asked if there is a GPS device on his car or do his phone records show where he was that day? He asked does the cell phone hard drive download show his location that day? Where did they go to lunch? If Karen's Ring video footage was tampered with/deleted, why/how? And do the neighbors next door or across the street have Ring footage showing her driveway activity? Please explain why not everything was captured on Karen's Ring video.

The PI said the process of going through the downloaded phone records is SO incredibly tedious for the police department, especially if HPD doesn't have a separate person just for that and you are having to do that on top of everything else with your job. I told him that I don't think you have any help with that process. He recommended that I ask you if I can hire the data recovery specialist he uses, Eric Devlin, former fed and current CEO of Lonestar Forensic Group in Houston, to have the three cell phone downloads gone through by their forensic experts.

So, I called Eric Devlin yesterday as well. (He said he actually filmed a Cold Justice TV show with you guys at HPD and you all are great people!) Eric said most police departments don't have the ability to do a deep extraction on phone data because the best device around, Cellebrite, is very expensive and also includes relicensing costs and then also training personal to use it. He told me to ask you if HPD uses Paraben, Oxygen, or AXIOM? He told me to ask you if the three phones were all Apple iPhones, and were you given the passwords to unlock them at the time of extraction? He said you would get more data if they were unlocked.

I contacted Jess Dubcak to see if he could bring his cell phone to the Lonestar Forensic Group office in Houston to use their Cellebrite system for a deeper download since Karen had texted him details about Frank telling her he would kill her. However Jess told me today that he since had to get a new cell phone because his old phone had water damage and is in storage somewhere due to his recent move to temporary housing. Eric says there is a good chance he can't fix Jess's phone if there is water damage that gets past the seal because the control board fries if you power the device on with moisture in it, but he can try. Jess says he will look through his storage unit to try to find it.

Please let me know if I can hire Kevin's company to have his forensic data specialists help you recover and interpret the downloaded data on these phones to try to get the most information for the case, and allow you to spend your limited time on other things. Eric says for you to please contact him to discuss allowing his company to help you retrieve data from these phones. His cell is: 832-216-6197.

Thank you very much, Jane

Hi Detective Hammond,

Thank you for getting back to me. I hope you had a nice holiday and your family is recovered and doing well. What would be the process of asking the DA office if it would allow outside forensics to help HPD analyze the phone data? Is that something you would ask, or would I ask their office? What data recovery system does HPD use? The forensic lab owner was asking me but I didn't know. I can provide the cell number of the data Lonestar lab owner if you or the DA would like to discuss details or logistics directly with him. Please let me know what I can do to help.

Good morning Detective!

I just wanted to check in with you to see if you were able to get any feedback or permission from the DA regarding hiring the data forensic specialists at Lonestar to help with the cell phone extractions. You all may remember him from the TV show he filmed with HPD. I can give you his name and cell phone number if you or the DA would like to call him to get more information. We really want to make sure we retrieve as much data as we possibly can, to help find the truth about what really happened to Karen.

Also, my dad went to the Rusty Door shop in Dodge earlier this week, and the assistant told him that she had recently spoken with Frank's sister, Lisa Elliott. Lisa told her that Frank was responsible for Karen's death, but that he is evil, and of course covered up or destroyed any and all evidence. Would it be possible to interview his sister for more information? My dad hears from most people he encounters around town that they know that Frank killed Karen, but now even his own sister is saying this.

My sister Anne and I were in Huntsville a couple weeks ago and met with Alan Fails, Karen's best friend and confidant. We showed him the "suicide" letter and he could instantly tell that certain parts of the letter were not written by Karen, as we had also thought. Alan said that the "ride or die" phrase specifically, Karen would never say (which we agree with), but that he heard Frank use that phrase a lot. Alan also said her signature looked different. We are all extremely confident that Frank co-authored the typed "suicide" note, at a bare minimum. Would it be possible to have it looked at by a handwriting specialist or is that something we would do on our own?

We are hopeful that the DA allows us to try to get as much data off the phones as possible, as well as subpoena Grace to be interviewed by a child specialist, to try to leave no stone unturned. I know we, along with the whole town, want justice for Karen.

Please let me know any updates when you get a chance, or if you'd like to set up a phone call next week to discuss.

Thank you so much & have a great weekend! Jane

Sorry for the second email, but here is more that Lisa told the shop assistant that I accidentally left off my previous email:

LISA ELLIOTT also said that when Frank divorced his last of who knows how many wives (she acted like he had had more than one before Karen), he has always lined up a new victim, in the last case, Karen.

LISA said that Frank is pure evil and that he certainly played a role in her death, aka "murder", but that we will never know how he did it.

LISA also said that Frank had impregnated Karen to get a permanent hold over her.

Frank was highly pissed off that Karen had her tubes tied.

Hi Detective Hammond,

Yesterday marked one year since my sister Karen's death. This week has been incredibly difficult, especially when we still don't have any answers. Do you know why the ballistic report has taken over a year to produce? Were you able to interview Lisa Elliott? Have you heard back from the DA if he will allow me to hire third party Forensic phone experts at Lonestar Forensics to try to export more data from the three phones? Do you know when the DA will receive the case to review and what charges he plans to bring before the grand jury? We are anxious to hear if there will be charges specifically for murder or assisted/coerced suicide. My sister Anne will be in town next week and I can join her to meet with either you and/or the DA to review. Please let me know if you have heard any updates since February and what the timeline is on next steps.

Thank you, Jane [Quoted text hidden] Kevin Hammond <khammond@huntsvilletx.gov>

I know this is a difficult time for you and your family. I have been in touch with the ballistics lab and they advised that the testing has begun and should be complete soon. I have been in contact with the DA. Charges will be decided by their office. I believe I answered the third party company question but the DA advised they want the evidence so they can review prior to that decision being made. As soon as the lab report is received, the case will be prepared and presented to the district attorney's office. I anticipate with the news from the ballistic lab that will not take much longer.

Good afternoon,

Thank you for the update and your continued efforts on this case. Please let me know when the ballistic report is complete. Do you have any idea why is it taking over a year to produce when you thought it would take 45 days?

In rereading the autopsy report last week, I noticed it says Karen was found in a "locked" car. How did the medical examiner or police/CSI determine the car was locked if Karen was already out of the car and on the ground before 911 was called? Are they just going off of what Frank told them or are there OnStar type records? I feet that her car being locked was a big reason that her death was ruled a suicide, and factors in determining cause of death shouldn't be based off the word of a main suspect.

He could have easily shot her or forced her to shoot herself with his hand over hers at that surprising bullet trajectory angle inconsistent with her being right handed. Then locked the car (or not), went home and showered/changed clothes, then later came back with Grace and pretended to find Karen in her "locked" car. Then punched through the window (whether it was locked or not) to "save" her. Then threw her on the ground to attempt CPR, then tell the man/couple staying next door to call 911. How would anyone besides Frank know the car was locked? Was a second set of car keys ever found?

Was Frank seen wearing two different outfits that day? Was his Ring video at his house reviewed? Does he have an alibi of where he was that day? Did recovered phone records track his movements that day? Does any video footage or witnesses show him at Karen's apartment earlier that afternoon? Karen told my dad that morning that they had plans to "eat lunch" that day, either at home or a restaurant. So that means Frank would have an excuse to be over at her apartment earlier in the afternoon.

Also, it is a huge red flag to our family that the toxicology report came back negative. We feel he took away her Zoloft prescription pills from her the week before to try to make her depressed/"not thinking clearly" enough to go along with his plan, as well as mentally and physically abusing her to cause bruising up and down her legs. He even called Jess Dubcak around 3:15am that Saturday morning 3/27 to say "I broke her." Do the bruises match up with that timing? We feel Karen would have never cold-turkey stopped her medication she took for years that worked so well for her. She was such a health nut and took such great care of her health as well as others. And she would have never left Grace without being stripped of her medication, physically and mentally abused and coerced to go along with his plan to shoot her to get her life insurance money and all of the community property he was about to lose. Have you gotten record of the big financial debts he needed to pay off? It is also a red flag that the "suicide" letter is not dated and the manner in which she says she will die (car crash) is not what actually happened. Would computer forensics show the time stamp that this document was started and later edited (by him)? Also it is clear which part of the letter he co-authored based on several things she would never say. There is doubt that this is her signature and initials. Is a handwriting forensic specialist able to analyze her signature? It's strange that there is a dot at the end of her name on the n.

Jenny Goerdel Carrera, Karen's friend from growing up, recently sent us the screen shots she previously shared with HPD in which Karen says on Feb 19th texts about Frank: he's repeatedly buying drugs at the office, she's letting him keep almost everything in divorce to get away quickly and without conflict, her main concern is about his emotional stability and drug and alcohol use when Grace is with him, he scheduled hookers on vacation in Mexico, she has a lot of things she can easily use against him, but hopes to expedite a peaceful parting and he will self destruct on his own. "He can be volatile and keeping him calm is a concern for a lot of people involved."

I also know Alan Fails told you he tried to run Karen over in front of Grace on a mule at the ranch because she asked him not to leave his marijuana around in the barn for Grace to find. There are also reports of him drinking a lot at Humphreys then driving Grace. I know we told you that Karen was concerned of who all Frank would bring around the house without Karen there, and what might happen to Grace by the other men if Frank was drunk/passed out. Frank also has emailed our family in which he says he was showering Grace, as we've said before. He also was charging \$100 to men to get a hug from Grace. I know law enforcement officers are mandated reporters required to report to CPS, and that you have interviewed many others and must know more information than anyone in regards to Frank's parenting. Have you called CPS since we last discussed it, or do you feel like the testimonies you've received don't justify a call? Has HPD done a drug raid on his home or office?

I know you probably don't respond to most of my questions because it is still an open investigation, but I just hope that you will consider all of these items in your report for the DA, and may no stone be left unturned. Another of Karen's friend says Frank often tags the DA in his Facebook posts. I pray that Mr. Durham will recuse himself and change jurisdictions if he cannot provide an unbiased review based on his friendship with Frank. Please let me know if there is anything I can do to help on my end.

Thanks again for all your help,

I know this is a difficult time for you and your family. I have been in touch with the ballistics lab and they advised that the testing has begun and should be complete soon. I have been in contact with the DA. Charges will be decided by their office. I believe I answered the third party company question but the DA advised they want the evidence so they can review prior to that decision being made. As soon as the lab report is received, the case will be prepared and presented to the district attorney's office. I anticipate with the news from the ballistic lab that will not take much longer.

Yesterday marked one year since my sister Karen's death. This week has been incredibly difficult, especially when we still don't have any answers. Do you know why the ballistic report has taken over a year to produce? Were you able to interview Lisa Elliott? Have you heard back from the DA if he will allow me to hire third party Forensic phone experts at Lonestar Forensics to try to export more data from the three phones? Do you know when the DA will receive the case to review and what charges he plans to bring before the grand jury? We are anxious to hear if there will be charges specifically for murder or assisted/coerced suicide. My sister Anne will be in town next week and I can join her to meet with either you and/or the DA to review. Please let me know if you have heard any updates since February and what the timeline is on next steps.

LISA ELLIOTT also said that when Frank divorced his last of who knows how many wives (she acted like he had had more than one before Karen), he has always lined up a new victim, in the last case, Karen.

LISA said that Frank is pure evil and that he certainly played a role in her death, aka "murder", but that we will never know how he did it.

LISA also said that Frank had impregnated Karen to get a permanent hold over her.

Frank was highly pissed off that Karen had her tubes tied.

Good morning Detective!

I just wanted to check in with you to see if you were able to get any feedback or permission from the DA regarding hiring the data forensic specialists at Lonestar to help with the cell phone extractions. You all may remember him from the TV show he filmed with HPD. I can give you his name and cell phone number if you or the DA would like to call him to get more information. We really want to make sure we retrieve as much data as we possibly can, to help find the truth about what really happened to Karen.

Also, my dad went to the Rusty Door shop in Dodge earlier this week, and the assistant told him that she had recently spoken with Frank's sister, Lisa Elliott. Lisa told her that Frank was responsible for Karen's death, but that he is evil, and of course covered up or destroyed any and all evidence. Would it be possible to interview his sister for more information? My dad hears from most people he encounters around town that they know that Frank killed Karen, but now even his own sister is saying this.

My sister Anne and I were in Huntsville a couple weeks ago and met with Alan Fails, Karen's best friend and confidant. We showed him the "suicide" letter and he could instantly tell that certain parts of the letter were not written by Karen, as we had also thought. Alan said that the "ride or die" phrase specifically, Karen would never say (which we agree with),

but that he heard Frank use that phrase a lot. Alan also said her signature looked different. We are all extremely confident that Frank co-authored the typed "suicide" note, at a bare minimum. Would it be possible to have it looked at by a handwriting specialist or is that something we would do on our own?

We are hopeful that the DA allows us to try to get as much data off the phones as possible, as well as subpoena Grace to be interviewed by a child specialist, to try to leave no stone unturned. I know we, along with the whole town, want justice for Karen.

Please let me know any updates when you get a chance, or if you'd like to set up a phone call next week to discuss.

Thank you so much & have a great weekend!

I just wanted to check in with you about some updates on Karen's case. I know you are very busy and have many other cases, so I am trying to figure out a way I can try to help. I also know that you can't disclose everything to me as I assume this investigation in ongoing, or has it closed at this point?

LABS: I emailed Judge Fisher with an autopsy request on 12/1. I called yesterday morning and his office said I should receive it by the end of the day yesterday, but I still don't have it as of tonight.

Can you please tell me why our family was not notified in August that you received Karen's autopsy and toxicology reports as you had planned to notify us as soon as you heard back, and why you told me in your 11/19 email that you still didn't have the labs back yet, when in fact you received two of the three reports in August?

Also, if the labs were sent to Judge Fisher on June 30, why didn't he get them to you until over a month later, in August?

Did you get a ballistic report update after I gave CSI agent M. Berry your email address on 12/1 and asked him to have the fire arms examiner email you?

SCENE EVIDENCE/DATA: I was referred to an ex Texas Ranger private investigator in Houston. I spoke with him yesterday and he said I probably wouldn't get an approximate time of death from the autopsy report, or from Judge Fisher as you suggested, because of the time it took to transport Karen to the lab in Montgomery County. He said someone would have had to take Karen's temperature at the scene, as well as consider the outside temperature, to try to predict her time of death. (Online records show the temperature was a high of 83 degrees between 3:00 & 6:00 pm, however she was in her car but her driveway is shady.) Did anyone take her temperature at the scene to try to predict her time of death? What time did Frank claim she texted him that afternoon saying she was admiring her new wedding ring (which she would have never said)?

The PI said that since Frank found Karen, someone would have taken his clothes at the scene to test for micro blood to investigate him/try to rule him out as a suspect. (He said if

Frank was with Karen at the shooting it would be assisted suicide, but if he then went home and showered and changed clothes and came back (to pretend to find her), it would be murder.) Did someone take Frank's clothes at the scene for evidence and forensic testing? If so, where can we get those results?

Taylor at the Montgomery Forensic Lab told me on 12/1 that they did not perform the gun powder residue test on Frank because you all did that at the scene. How do we get those results since they aren't included in the Montgomery Forensic Lab reports? Does the police have proof that Karen pulled the trigger on her own, and with Frank proven elsewhere? Where can we get the forensic reports on the blood splatter and bullet trajectory? What does the blood splatter indicate?

Taylor also told me that the pathologist report gives the opinion of suicide due to skin searing from the gun vs a shot from farther away. However, Frank could press a gun to Karen's skin, so I'm not sure why that was the only reason given?

PHONE DATA RECOVERY:

The PI asked where Frank was during the day? He asked if there is a GPS device on his car or do his phone records show where he was that day? He asked does the cell phone hard drive download show his location that day? Where did they go to lunch? If Karen's Ring video footage was tampered with/deleted, why/how? And do the neighbors next door or across the street have Ring footage showing her driveway activity? Please explain why not everything was captured on Karen's Ring video.

The PI said the process of going through the downloaded phone records is SO incredibly tedious for

the police department, especially if HPD doesn't have a separate person just for that and you are having to do that on top of everything else with your job. I told him that I don't think you have any help with that process. He recommended that I ask you if I can hire the data recovery specialist he uses, Eric Devlin, former fed and current CEO of Lonestar Forensic Group in Houston, to have the three cell phone downloads gone through by their forensic experts.

So, I called Eric Devlin yesterday as well. (He said he actually filmed a Cold Justice TV show with you guys at HPD and you all are great people!) Eric said most police departments don't have the ability to do a deep extraction on phone data because the best device around, Cellebrite, is very expensive and also includes relicensing costs and then also training personal to use it. He told me to ask you if HPD uses Paraben, Oxygen, or AXIOM? He told me to ask you if the three phones were all Apple iPhones, and were you given the passwords to unlock them at the time of extraction? He said you would get more data if they were unlocked.

I contacted Jess Dubcak to see if he could bring his cell phone to the Lonestar Forensic Group office in Houston to use their Cellebrite system for a deeper download since Karen had texted him details about Frank telling her he would kill her. However Jess told me today that he since had to get a new cell phone because his old phone had water damage and is in storage somewhere due to his recent move to temporary housing. Eric says there is a good chance he can't fix Jess's phone if there is water damage that gets past the seal because the control board fries if you power the device on with moisture in it, but he can try. Jess says he will look

through his storage unit to try to find it.

Please let me know if I can hire Kevin's company to have his forensic data specialists help you recover and interpret the downloaded data on these phones to try to get the most information for the case, and allow you to spend your limited time on other things. Eric says for you to please contact him to discuss allowing his company to help you retrieve data from these phones. His cell is: 832-216-6197.

Thank you very much, Jane

Update: she said it is still in her queue. It's listed as a suicide so it's a lower priority in her system. Speaking with Miss Jane, I'm guessing that she doesn't believe that it's a suicide because she made it sound like it was a suspicious death case.

Our firearms examiner is aware of it now though so hopefully it gets moved up in the queue, but no promises. She scares me sometimes so I don't want to rush her haha

Theft of \$100,000 plus interest

Kevin:

I finally have all of the proof that Andrew Boyce, Jacob Paschal and Frank Robinson stole \$100,000 (plus interest) from me. It is my understanding that a conspiracy between three or more constitutes ORGANIZED CRIME.

Until I obtained the INVENTORY, APPRAISEMENT AND LIST OF CLAIMS IN THE ESTATE OF KAREN ROBINSON, all I had were e-mail messages from Frank promising to pay me and my wife back \$140,000 that he had borrowed for no more than 30 days, plus interest, many months ago.

Now, I have proof under DEBTS OF THE ESTATE OF KAREN ROBINSON, signed and notarized, that Polk County Title was to have presented checks in the amount of \$100,000 to me and \$40,000 to Sue. (Nothing was said about the promised interest)

I went to Polk County Title to pick up the checks and the staff tried to trick me into signing a document concocted by Jacob Paschal that would have given my \$100K to Frank that Frank would then have used to bribe me into never filing any suit against him or claim or I believe testify against him.

I refused to sign after demanding to read the document, then Boyce sent the checks to Cantrell and Barcus for some bizarre reason, but the Title Company still wanted me to take the bait in the attempted theft and fraud, so they sent the checks back to Polk County Title.

Sue eventually got her checks and then Boyce TORE UP MY \$100,000 check and re-wrote it to Frank Robinson, thus completing the theft of \$100,000.

I believe that the blatant theft of \$100K is considered to be a felony and in my opinion the other two bad actors played a significant role in the conspiracy.

There is other firm, hard copy evidence of fraud:

- 1. Frank signed an AFFIDAVIT OF HOMESTEAD on 28 October, 2019 declaring that he was a SINGLE ADULT, thus defrauding Karen out of her half of her home that was appraised by the CAD at \$382,530.
- 2. Frank sold community properties for \$1,735,485 of which William was to have received 25% according to a death without a will. (However I am confident that Karen would have had a will as she was so meticulous in everything she did. William Walker, her adult son has never received a cent of this money.
- 3. The INVENTORY AND APPRAISAL is also FRAUDULENT as what was paid was significantly higher than what was listed in the appraisal. According to my understanding of the law William's share would have been \$391,192 or which he received ZERO.
- 4. THIS IS JUST THE TIP OF THE ICEBERG: Karen was happy as a lark on the morning of the day she was killed when I called her to check on her. The Autopsy Report that took Jane several months to track down PROVED HOMICIDE rather than SUICIDE: a. The trajectory of the bullet was such that she could not have pulled the trigger unless forced and she had suffered 14 BLUNT FORCE TRAUMA WOUNDS ON HER BODY. There were other clues as well. The Autopsy should have said that the cause of death was unknown and the literature suggests that the chief suspect in any death of a wife, lover, or other is the male.
- 5. The entire "crime or death scene" should have been cordoned off and Frank kept clear away and not given sole access to her home, and other potential evidence so at this point if may be difficult to recreate anything that may have been erased from her cell phone, her computer or her files in her home that Frank had SOLE access to for around two weeks,

refusing to allow any of us to enter.

- 6. What happened to the "death car"?
- 7. Why were latex examination gloves discarded at the scene not recovered and checked for blood, glass, fingerprints etc.
- 8. What is the EMS SOP for discarding latex gloves?
- 9. Then there are the two insurance policies in addition to William's. USAA investigated the allegation that Frank tried to trick them into sending him William's money after William refused to turn his policy proceeds over to Frank. This week USAA hinted that they had evidence of a recorded phone call or other evidence but since William did receive his money they were closing the case.

There is much more evidence that Karen did NOT independently kill herself.

If nothing else the documented theft of my \$100K should be enough for the DA to file felony theft charges against Frank.

MURDER OF KAREN LEE RUSSELL

Kevin:

There is more and more evidence that Karen's murder was pre-meditated and planned at least two years before she was beaten half to death and then shot to death.

The autopsy report that we FINALLY got proves many things:

- 1. She had 12 or 13 BLUNT FORCE TRAUMA WOUNDS on her body.
- 2. The trajectory of the bullet PROVED that if she was FORCED to pull the trigger after being horrifically beaten, her hand was twisted so that the bullet would travel from left to right, which may explain the trauma to her thumb. (But the autopsy did NOT include evidence of looking for power burns on her hand.)
- 3. It is more and more evident that Frank is a PROTECTED MEMBER OF THE GIBBS MAFIA that controls the DA, the Sheriff, the Chief of Police and virtually every aspect of life and death in Walker County, San Jacinto County, Polk County and Trinity County. I have watched how the Gibbs Mafia, using their pawns, puppets, and loyalists have used DRUGS, SEX, and DEBT to control virtually every politician and institution in E. Texas for well over 100 years.

(Please keep in mind that it was the Godfather of the Mob that coined the term "Gibbs Mafia" when ED SANDHOP told me that ONLY DR. COLE and I have survived defying the "Gibbs Mafia", in spite of death threats, false arrests, harassment and decades of efforts to destroy both Dr. Cole and me.

It is obvious that Frank was protected at the MURDER SCENE and was illegally given exclusive access to her home, owned by us, with FRANK having ZERO LEGAL ACCESS, yet he was given virtually ALL EVIDENCE THAT SHOULD HAVE PROVEN THAT HE WAS HER KILLER: Her death car, her cell phone, her computer and private access to all of her archives.

We asked several times that he be drug tested at the murder scene, since he was obviously high on one or more drugs and alcohol and was way too happy about Karen's death. The discarded examination gloves at the murder scene were never tested nor was there a test for blood splatter on Frank's person or his clothes.

In a conspiracy to STEAL our \$100K, his attorney (we believe to be Jacob Pascal) fabricated a fraudulent document pretending that our \$100K was Frank's and not ours, so that he could use OUR MONEY as a bribe to give him a "get out of jail card." Andrew Boyce at Polk County Title allegedly tore up our \$100K check and then re-wrote it in the name of Frank Robinson.

By murdering our daughter when she believed that she was divorced he came out ahead at least \$2 million or more in addition to the million or more than he cheated my wife and me out of and then the more recent theft of our \$100K.

He has been partying every since her murder and is now spending Christmas in Cozumel.

I hope that you have communicated with USAA to determine just when Karen purchased an estimated \$900,000 in insurance policies that would reward Frank \$600K upon her death plus retaining all of her valuable COMMUNITY PROPERTY.

We also need to know if Frank had insurance on his life that would have gone to Karen in the event of his death.

Keep in mind that Frank harassed her son William in an illegal attempt to cheat him out of his share of the life insurance proceeds and allegedly called USAA in an attempt to defraud USAA out of her son's \$300K.

Very telling is that DA, Will Durham and JP Steve Fisher both gave Frank a "thumbs up" yesterday, about his trip to Cancun. Unless they are attempting to bait him into confessing the murder somehow I find it absolutely wrong for them to be involved in his use of illicit gains of a large sum of money ONLY DUE TO MURDERING KAREN for fancy trip after fancy trip.

I can only assume that you have been ORDERED to deep six the investigation into her murder or lose your job and retirement, because I personally believe that you are an ethical and professional investigator, unless intimidated by the

What have I done? What have I done? WHAT HAVE I DONE??? Could I be more of a fool? How could I do this to my family? How could I hurt and embarrass them like this? And worse yet, I am a fool AND A LIAR.

I'm 40 fucking years old – I thought I finally had it together. I thought I could do better than this... Clearly not. What the fuck?

I KNOW BETTER... How could I be so messed up? Why am I determined to selfdestruct? I thought this time would be different...

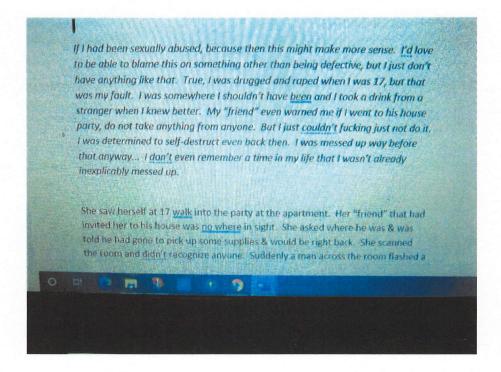

She saw herself sitting on the small sofa a therapist she had over a decade before tell her, "I have been doing counseling for 19 years, and of all my clients, I have NEVER met anyone that hates themselves more than you. I'm certain you have PTSD, but I haven't discovered the source to do this much damage to you. Normally, this would make sense if there was a history of sexual abuse, but..."

She saw horself at 17 seek lettle the party at the opening of the Threed Tourself and the foot has holise was no where in soft. She acted where he was it will told he had gone to pick up some supplies it would be right back. She scanned the room and didn't recognize anyone. Suddenly a man across the room flashed a warm smile and walked over to her – asking her name, her age, where she was from... "Do you want a drink?" he asked, and flashed her another friendly, reassuring smile. "Ok sure I will take one," she replied. He handed her the drink, and as she looked around the room at all the strangers, she strated drinking. It tourses ok., she thought. And he offered her a refill as the small talk continued. She looked at her watch, wondering where her "friend" was asked how much donger til he would return. "Oh, I just talked to him – he's on his way kack, and should be here in 5 minutes. Here's another drink while you wait." As she drank the second drink, she began to feel a little tired and weak. Then the soon started spinning. Oh to, she thought, and she stumbled to the counter to set the cup down. Don't pass out, don't pass out, don't pass out, she told herself. It became gety clear she was going to pass out at any moment. She pushed through the group of people towards the bathroom and locked the door. She sat down and slamped ever in front of the soor. Out shirt, I've been drugger. On no, were a search as the straining stranger was knocking on the door tell mans.

Kevin:

Karen Lee Russell was MURDERED plain and simple. There was ZERO investigation and all evidence was given to the main suspect in the murder which I believe to have been a serious crime on the part of HPD.

I feel like you have been ORDERED by the totally corrupt psycho religious EXTREME CULTIST chief of police, that has proven that he hates me because I am NOT a psycho-christian CULT MEMBER, to DEEP SIX the BLATANT EVIDENCE THAT FRANK ROBINSON MURDERED OUR DAUGHTER.

13 BLUNT FORCE TRAUMA WOUNDS ON HER BODY and the TRAJECTORY OF THE KILLING BULLET WAS SUCH THAT SHE COULD NOT HAVE PULLED THE TRIGGER UNLESS HER ARM AND HAND HAD BEEN VIOLENTLY TWISTED WHICH WOULD HAVE NO DOUBT CAUSED THE WOUND TO HER THUMB. The autopsy had been hidden by HPD for months until daughter, Jane finally located it and we finally got a copy. Now we know why the autopsy was

If you are scared to actually investigate the crime then perhaps you can reach out for help from the Texas Rangers or the

Of course I know that if you confront the corrupt system that rules Huntsville, you could lose your job and your retirement pay and thus I am sympathetic but "whistle blowers" are usually protected by State and/or Federal Laws.

I have TOTAL DOCUMENTED EVIDENCE that Frank Robinson, Andrew Bryce and Jacob Paschal conspired to steal \$100,000 from me. To cut to the chase: Andrew Bryce had a check made out in my name in the amount of \$100,000 which had been owed to me. When Frank murdered Karen for around \$600,000 in life insurance and the community property owed to her in their divorce, he sold some of her land and I was promised that the \$100,000 loan would be paid back at closing. There were twists and turns due to Jacob Paschal's fabrication of a document meant defraud me out of my \$100,000, which I refused to sign. Andrew Bryce then tore up the check written to me from the closing of the sale of Karen's property and then re-wrote the check in the name of Frank Robinson and sent it to him. This was a SERIOUS FELONY and HPD needs to file serious felony charges and take the three criminals into custody.

In my opinion, failure of HPD to take action to apprehend three known conspirators in the theft of my \$100,000 would constitute a crime in and of itself and should include HPD in the FELONY THEFT OF MY \$100,000 which I desperately need to pay property taxes considering the fact that Frank Robinson DEFRAUDED US OUT OF WHAT WILL ADD UP TO BE MORE THAN A MILLION DOLLARS.

Keep in mind that my wife and I are senior citizens of 76 years of age and my wife is handicapped and as a veteran there are supposed to be added legal protections in the event that I have been a VICTIM OF SERIOUS ELDER ABUSE.

P. S. I will be happy to provide autographed copies of my recently published book: SATAN'S GREATEST LIES and THE ETHICIAN BIBLE to any on the list that would like a copy and SHOULD like a copy that exposes how DANGEROUSLY PSYCHO our Chief of Police who uses his RELIGIOUS EXTREMISM in violation of the UNITED STATES CONSTITUTION to punish me and had already caused us to have our \$600,000 home at 1700 Ave S virtually destroyed by fire when the chief MALICIOUSLY ALLOWED A GANG OF DRUGGIES TO INVADE IT, DESTROY THE INTERIOR, TERRORIZE THE NEIGHBORHOOD, SET UP A DRUGGIE CAMP IN THE GIBBS WOODS BEHIND THE HOUSE and eventually torch the house and BLOW UP THE METH LAB in the basement. The Chief knows the names of the ARSONISTS and so far as I know REFUSES TO ARREST THEM.

Subject: Proof positive of KAREN being beaten before her murder.

15 December 2021

Kevin:

Finally got a copy of the "abbreviated" autopsy report on the "murder" of Karen.

Insane that there was no reference to gun powder residue on her hands.

Allegedly HPD did that but we DEMAND A COPY OF THE REPORT. HPD illegally gave Frank access to her home that we own and that he was never on the lease, gave him all probably evidence of the murder as in her computers, cell phone, document files and any and all other evidence that might have put the MAJOR PERSON OF INTEREST IN JAIL.

Total proof of physical abuse: 12 contusions on her legs caused from brutal force. The ONLY person that could possibly have beaten Karen was Frank Robinson AND THE ONLY PERSON THAT WANTED HER DEAD.

His history is of years of physical and emotional abuse and threats, demanding that she kill herself, and that she was a slut, insane, could not be cured and thus was better off dead.

I have been building a paper trail that PROVES that he and his associates used various means including EXTORTION to

steal \$100K just in the last week or so. The criminals (organized crime) included Polk County Title, Frank and his ethically bankrupt attorney, Jacob Pascall, who produced the document used to attempt to extort our \$100K.

It is ALL IN WRITING proving that the money was NEVER FRANK'S and was always ours.

Theft or extortion of \$100K is a FELONY and Frank, Pascal and his accomplice, Andrew Boyce, who tore up our check for \$100K and then re-wrote it to Frank Robinson, thus stealing our \$100K in violation of Title Company's fiduciary obligations in regard to safeguarding the money of others, aka George H. Russell.

This is NOT conjecture but DOCUMENTED FACTS!!!

We need our stolen \$100K in order to pay property taxes so please call for the ARREST OF ALL THREE PERPS which might make them cough up our stolen \$100K.

Thanks,

Kevin:

I believe that I have compiled documented evidence of multiple felonies committed by Frank Robinson.

The most recent conspiracy to steal our \$100K should be enough to arrest him and take him off the street as I consider him extremely dangerous to my life.

Below are some of the crimes that I have documented:

- 1. FRAUD
- 2. EXTORTION
- 3. THREATS
- 4. BLACKMAIL
- 5. FELONY THEFT
- 6. EITHER PRE-MEDITATED DIRECT MURDER OR PRE-PLANNED FORCED SUICIDE

It is far past prime to press serious CRIMINAL CHARGES.

We need the \$100K that he stole last week with the help of an accomplice at the Polk County Title Company.

If you are being pressured to sweep these horrible crimes under the rug perhaps you can ask for assistance from the FBI and/or Texas Rangers.

THEFT OF \$100k

Kevin:

I confirmed today that Polk County Title tore up our check for \$100K and then re-wrote the check to GIVE FRANK ROBINSON our \$100K. This is SERIOUS FELONY THEFT on behalf of Frank Robinson. It is way past time for all of the perps involved in this FELONY theft to be arrested.

There are several persons involved in the FELONY THEFT of our \$100K, plus promised interest to the tune of 1% per month. My wife did FINALLY get her \$40K check without the promised 1% per month interest.

The person orchestrating the origins of the theft was Jacob Pascall, who allegedly fabricated the document meant to give Frank a "Get our of Jail FREE card", in which he CLAIMED THAT OUR \$100k was his and not ours and that he would pay us \$100K as a bribe to make sure that we would NEVER accuse him of any crimes past, present or future, which means we would give up the right to sue him for the million or so that he defrauded us out and "forgive" him for his role in the death of our daughter which meets the criteria to be considered MURDER regardless of whether or not she pulled the trigger or he forced her to destroy her beautiful life.

Worse is that he was to give us a 1099 so that we would have to pay income tax on OUR OWN MONEY and then he would write of the \$100K as a "business expense". This would be serious IRS FRAUD in addition to other multiple crimes.

Andrew Boyce, of Polk County Title, who tore up our \$100K check and who then wrote a check to Frank Robinson, giving him our money committed a SERIOUS FELONY in our opinion.

He refuses to accept any responsibility for the FELONY THEFT so it is time for Polk County authorities to take him to jail and charge him with the VERY SERIOUS FELONY THEFT OF OUR \$100k.

Jacob Pascall's role should get him disbarred for SERIOUS VIOLATIONS OF THE TEXAS BAR CODE OF ETHICS.

Of course the CHRISTIAN TALIBAN CHIEF OF POLICE who hates me who played a role in the destruction of our house at 1700 Ave S, claims that I am going to burn in the fires of Hell because I am NOT A CHRISTIAN and believes that innocent people should be put to death "so that they can be with Jesus sooner". This kind of RELIGIOUS PSYCHOPATH has no business using his insanity to punish people who do not thump Bibles at his same cadence. It appears that the corrupt Chief gave Frank Robinson access to any and all evidence that might have convicted him such as access to OUR PROPERTY in which Karen had been happily living, her computer, cell phone, the "death vehicle" when in fact he should have immediately been the chief suspect in her death. The man meets all of the criteria as being a NARCISSISTIC PSYCHOPATH. Look it up.

The recipient of our STOLEN \$100k is FRANK ROBINSON who has possession of our STOLEN \$100k.

I have no idea how to force the major parties, in what would meet the definition of ORGANIZED CRIME in our opinion, to return our stolen \$100K, so we are placing this "hot potato" in your hands to make sure that justice is served.

We NEED THE MONEY TO PAY PROPERTY TAXES so please hurry as taxes as due NLT 31 December 2021.

We just spent three days downloading all of the texts that we could find between Frank and me and there is total evidence pointing to Frank's fraudulent inducement to invest in the trailer factory with a promise of no less than \$200K a year to maintain our museums, wildlife sanctuaries, and botanical preserves. I will print out all e-mails as well.

KEEP IN MIND THAT DESTRUCTION OF EVIDENCE AND THROWING KAREN OUT ON THE GROUND, FAILING TO CALL 911, AND ORDERING THE NEIGHBOR WHO WANTED TO SEE IF SHE WAS STILL ALIVE TO NOT TOUCH HER, are all CRIMES and should be prosecuted.

There is a lot of other evidence against Frank so tomorrow we will attempt to print it out. I also have a written threat against me, plus having to drive a different vehicle he is not aware of. FRANK NEEDS TO BE TAKEN OFF THE STREETS OF HUNTSVILLE for all of our safety.

Regardless of "gray areas" in regard to proving Karen's murder, the evidence of FRANK'S RECENT THEFT OF \$100K IS fully documented and should give the DA enough firm evidence to file FELONY CHARGES AGAINST FRANK and perhaps the others involved in ORGANIZED CRIME in that regard.

There is more and more evidence that Frank meets all of the red flags as a Narcissistic Psychopath. I believe that he had been plotting Karen's "murder" for at least two years. I believe that the discarded rubber gloves were his to avoid the detection of gun powder residue on his hands. The fact that the police REFUSED to drug test him when he was obviously celebrating Karen's death in a drugged out state is also telling especially since he wears a huge "Christian Cross" that according to our Christian Taliban psycho Chief of Police mean that even if Frank pulled the trigger he is innocent. Your boss is just another PSYCHOPATH that purposefully allowed a drug gang to invade our \$600K house at 1700 Ave S and allowed the KNOWN arsonists to blow up the meth lab in the basement. Have there been any arrests in that crime?

Hopefully the feds will come in an clean up the Organized Crime gang that has ruled Walker County since the 1840's.

Please provide a copy of the autopsy.

Thanks.

Kevin:

Its far past time to get an update on your progress in presenting the facts associated with the pre-meditated murder of

Frank only married Karen to get to our life's savings and get us into debt to that he could pay a known "former?" cocaine. dealer \$10,000 a month to run the trailer factory into the ground. He bragged around town that he was going after Karen

When after 10 years he had groomed us into believing that the trailer factory would provide an income of over \$250,000 a year to support our museums and church, I stupidly fell for his FRAUDULENT INDUCEMENT and lie after lie.

He meets ALL of the boxes to check for NARCISSISTIC PSYCHOPATHS.

After he drained our resources and Karen was sick and tired of at least 12 years of ABUSIVE and Frank having turned her daughter into a weapon to use against Karen, she wanted a divorce that took her two years to believe that she had

She came to our church on March 20th to celebrate finally being free from a human monster, it turned out that the final paper work had not been filed and that he was still technically married to our beautiful and kind-hearted daughter.

He then began intense hate against her, ordering her to kill herself, ordering her to become his prisoner and also to force her to manage his obviously corrupt business dealings, telling everyone that she was a whore, slut, insane and worthless and needed to die because her brain was "sick", and attempting to force her to return to the ranch for continuous screaming, threats and other abuses.

He threatened her friends with death and one is still in hiding and he accused me of causing her death by forcing her to make good grades in Jr. High which was totally stupid since she was genius and made perfect grades without any pressure from me other than giving her cash rewards for "A's". I have been having to drive a vehicle that he doesn't recognize because he had threatened to kill me in the past and was acting in a psycho and threatening way at the murder

Kristi asked the police to keep him away from me as he was acting DRUGGED OUT and under the influence of alcohol and she repeatedly asked that he be drug tested.

He made Karen's life a living hell and she felt trapped and if she actually gut shot herself which females NEVER do he made sure that she would die so that he could collect serious life insurance money.

According to neighbors, he had thrown her out on the ground and refused to allow the neighbor to attempt to revive her.

USAA would not pay off unless the victim of "suicide" had purchased the policy at least TWO YEARS before, which makes me believe that this psychopath had been plotting her death for at least two years as he had NO MORE USE FOR HER since she would no longer be keeping him out of jail for kiting checks and paying his whores out of company funds.,

She had also had her tubes tied which pissed him off since he wouldn't have a male heir through her.

At the death scene he was CELEBRATING with his buddles and made periodic FAKE SCREAMS and then went back to celebrating with this pals and smoking cigarettes.

We had been visiting with Karen almost daily and she was so happy and he last photo was when Kristi and I visited her at https://mail.google.com/mail/u/0/?ik=0145b96b17&view=pt&search=all&permthid=thread-f%3A1715555501220450503&simpl=msg-f%3A1715555501... 1/4 her home with Kristi's baby squirrel. We had never seen her happier when she believed that she was done with Frank as her abusing husband.

He harassed and threatened her son from her first marriage to turn over his insurance money and when he refused he actually called USAA in an attempt to get them to turn William's money over to him.

He kept lying and lying and telling me that the only reason that the trailer factory wasn't spinning off at least \$12,000 a month as promised from our investment was that the person in charge had been stealing all of the profits but when he was in charge he paid rent every month.

Frank said that business was so good that I should attempt to purchase adjoining properties for imminent expansion and I did try to buy two adjacent properties.

Then after the alleged "thief" was fired things turned south but without my knowledge based on his chronic lying.

Eventually, he called actually in tears and crying that he would be going to jail for hot checks or other manipulations unless he had to have \$100,000 for 30 days to recover financially allegedly due to the thief and then from that point on it would be all profit. I once again foolishly felt sorry for him and loaned him the \$100K allegedly for no longer than 30 days.

He then called again for emergency money which we no longer had as he had taken virtually all of our liquid life's savings and then got me \$300,000 in debt and needed \$50,000 from my wife remaining inheritance from her mother for 10 days.

Last week he sold some no doubt "community property" and promised to pay back the \$100,000 K and Sue's remaining \$40,000, after Karen had sold her car to pay her mother \$10,000. Of course Frank had offered interest and he had also promised to pay the note on the \$300,000 that I had borrowed to bring the business into profitability. He never paid a penny, quit paying rent and kept on with his lying and fraud against two senior citizens, that meets the definition of ELDER ABUSE.

So last week he sent word that the \$140,000 (without the promised interest) would be paid back. So I went to the Polk County Title Company (why closing in Polk County instead of Walker County?) to collect the promised repayment of the EMERGENCY 30 and 10 day loans after around 3 years and was told to sign a document without reading it.

I refused to sign without reading it and he had no intention of repaying the loan but wanted me to sign a multi-page document that said that the \$100K was HIS MONEY that he was paying for a permanent and total release of any liability for anything he had ever done to us past, present or future and that our family, employees etc. were also prohibited from filing any claim against him. Such an attempted SCAM!!!

So the checks were mailed to our attorney Hans Barcus and Hans had no choice but to send the \$140,000 back to the Title Company as I was not about to absolve him of the murder of our daughter and what will be over a MILLION DOLLARS in fraud.

So we are dealing with multiple crimes, including but not limited to FRAUDULENT INDUCEMENT of senior citizens to invest in a BOGUS investment, pre-meditated murder of our precious child for no doubt at least \$2 million in insurance and retention of community property, and a criminal scheme to be HOME FREE from fraud, elder abuse and murder.

And the really creepy thing is his relationship with our grand-daughter.

- A. He had brain-washed Grace into believing that Karen was crazy, had a "sick brain" and better off dead.
- B. He told Grace repeatedly, in my presence over time that she didn't have to listen to her mother and could eat anything off of her restricted diet and not to pay attention to Karen's attempts to keep the child healthy in spite of serious health problems on the part of the child. She was not required by Frank to even mind her mother.
- C. At the funeral, I did not see a tear from Grace and she comforted Frank by telling him that she would take Karen's place.
- D. After the insurance arrived it was "party time", and then frank and Grace went on major road trips.
- E. Apparently he showers with her as he bragged that while they were showering she grew faint and he caught her before she could fall.

If you will do some deep background on Narcissistic Psychopaths you will find that he fits the mental health situation 100%.

Therefore:

- 1, Please give us an update on your investigation.
- 2. Please provide a copy of the autopsy report.
- 3. Please let us know when Karen purchased the life insurance policy or policies and the amounts paid to Frank, Grace, and William.
- 4. Please let us know when and if Frank purchased life insurance to pay Karen in the event of his death.
- 5. Please let us know how much money received or will receive for the sale of land near his ranch.

Questions:

- 1. Has the DA investigated and if not why not?
- 2. Is it not a crime to threaten to kill innocent persons just because they were friends of Karen's?
- 3. Have you heard from anyone believing that Frank hired a hit on Karen? At least 3 or 4 believe that he was too chicken to pull the trigger.
- 4. There were DISCARDED GLOVES at the death scene, so please tell me why I was told that EMS had tossed the gloves out on the ground in violation of all protocol followed by HPD and EMS? I wanted to take possession of the discarded gloves but had been assured that they were EMS and thus not Frank's.

Thanks for your help in bringing Frank to justice although it is impossible to bring our murdered daughter back to life.

To: khammond@huntsvilletx.gov, moo <sue@cyberclone.net>, Anne Russell <anneonvacation@yahoo.com>, Jane McCullah <imccullah@sbcglobal.net>

A few more facts:

- 1. Karen's home was in her name only. Frank's name was nowhere on the lease.
- 2. Not sure about her car where she was no doubt murdered, but allegedly is was GIVEN TO FRANK.
- 3. Her computers and emails where hers and hers alone and NOT FRANKS, but they were turned over to the PERSON OF INTEREST or CHIEF SUSPECT.

Therefore:

- 1. Why was FRANK exclusive access to her home that he had NO LEGAL RIGHT to access and control?
- 2. Why was FRANK given her vehicle in a major CRIME SCENE to take away or have control of?
- 3. Why was FRANK given the authority to access all of her computers, files and and ALL EVIDENCE that placed him as CHIEF SUSPECT in the murder?

The Chief of Police HATES me as I am NOT a person that BIBLE THUMPS in his same cadence and told me that I am going to BURN IN THE FIRES OF HELL and promotes the MURDER, AKA execution of innocent persons, 'SO THAT THEY CAN BE WITH JESUS SOONER" and he encouraged DRUG THUGS to invade our \$600K home at 1700 Ave S and destroy the contents before blowing up the METH LAB in the basement. The known suspects are still at large as far as I know as well as the other known criminals that invaded the house and caused at least \$400K in uninsured damages.

So, I can only suggest that the corrupt Chief of Police now apparently refused to actually investigate the murder of our daughter and ordered Kevin Hammond to shove the evidence "under the rug"... [Quoted text hidden]

Another reason to kill Karen was that she was privy to his schemes and cons in manipulating resources between his several companies that she was forced to manage. I feel confident that the IRS and other agencies may eventually uncover some of his manipulations which no doubt included tax fraud. She was even made to "expense" his trips to whore houses.

29 November 2021

Kevin:

Frank is a NARCISSISTIC PSYCHOPATH and abused Karen for 14 years. Her pre-meditated murder was planned over a period of at least two years so that he could collect insurance that we believe was at least \$600K.

She was absolutely happy and celebrating at church on March 20th believing that she was "free at last, free at last" from his abuse and tyranny.

He defrauded Sue and me out of what will be well over a million dollars including interest on our debt, rents not paid and the costs of dealing with serious damages to our building. Everything he had told me about investing in the trailer factory was a bald-faced lie.

He claimed that the manager, who was very competent was stealing from the business but he always paid us rent on the building on time. After Frank fired him, he hired a known former cocaine dealer and fraudster, paying him \$10,000 a month for running the factory into the ground.

Frank convinced us that if we would invest \$500,000 cash which included going into debt \$300K on the building he would pay the note and that the factory would spin off a minimum of \$200K per year to help us manage our museums, wildlife sanctuaries and botanical preserves.

The trailers were first class and thus I was convinced that the business was financially sound.

But Frank was busy wasting our investment with an in-ground swimming pool, a Jeep Rubicon, trips to Cancun and other waste of our money.

He said it was so profitable and growing so fast that I should purchase the property behind and next door for imminent expansion. I actually negotiated with the property owners to prepare for the coming expansion.

Our investment was to have paid off all debts and then we would start getting checks each month which of course never happened.

He called me in tears (yes crying) that he needed an emergency \$100K which would pay all debts and it would be smooth sailing. That was to have been a guaranteed personal loan for 30 days with interest. Then he needed \$50K of Sue's remaining inheritance money to be paid back with interest within 30 days. ALL LIES!!!

Then, he made side deals to practically give away tens of thousands of dollars worth of steel, wheels, very expensive equipment that was supposed to have been held as collateral in the factory's lease. I told Frank that I would pay more than he was getting for selling new steel for scrap to a very sketchy "friend".

By murdering Karen he got to retain all of the "Community Property" and recently sold some land, allegedly at a very serious price. I was told to go to the Title Company in Livingston to collect two checks -- one for \$40K and the other for \$100K. Ever wonder why Livingston for a Walker County sale rather than Walker County Title?

So I drove to Livingston and the last sheet of a document was thrust in front of me to sign if we wanted the money. refused to sign without reading and it turned out it was an attempt to hold our money hostage and force me to sign a release absolving him of any wrongdoing past, present and future.

THAT WAS FELONY THEFT TO HOLD US HOSTAGE WITH OUR OWN MONEY, IN HIS ATTEMPT TO PREVENT ANY OF US FROM EVER EXPOSING HIS FRAUD, THEFT, AND THE MURDER OF OUR DAUGHTER. HE ACTED LIKE WE WERE BEING BRIBED WITH HIS MONEY AND NOT OURS.

Now he told Sue that she could have her \$40K obviously without the promised interest but that we can't get our \$100K returned UNLESS I SIGN THE EXTORTIONISTIC DOCUMENT. That \$100K was Community Property so \$50K was Sue's and he refuses to return OUR money unless and until I release him from any liability, past, present and future and my signature would cover any employee, family member, or any other person on the planet.

Since he threatened to kill me I have been driving a different vehicle he wouldn't recognize. I consider him armed, psychotic and dangerous so am afraid to confront him directly., I have no choice but to rely on law enforcement and the DA to do their jobs and lock this monster up for a long, long time.

We need our money considering the fact that he defrauded us out of our remaining liquid capital and got us into debt to the tune of \$300K of which we still owe around \$230K and with property taxes coming due we are hurting for our money that he fraudulently conned us out of with false promises.

The fact that HPD gave Frank access to her home, when the property was owned by us, the lease was in her name only and he had no legal right to take control of it, especially since he should have been the most likely person to have been responsible for her death is beyond belief. He was ILLEGALLY (in my opinion) treated like a grieving victim, but was NEVER upset or depressed by her death. He was either drunk or hopped up on drugs and we asked at the scene several times that he be drug tested but was given free reign. Even her vehicle was allegedly given to him and he was in a position to scan her cell phone, computers and destroy any and all evidence that would have fingered him, which I believe was NOT ethical policing. He had called me around 6:30 pm the night of her death and in a gruff and demanding voice said: "Get you ass up to your daughter's house. She shot herself in the heart and she is dead".

I don't think that HPD and EMS discard rubber gloves on the ground at the scene of the crime yet, the next day there were gloves discarded in EXTREME VIOLATION OF THE RULES ASSOCIATED WITH DISPOSING OF GLOVES AT A CRIME SCENE.

He was celebrating an hanging out with his buddies. Around three times he let out a false scream and then returned to celebrating her death. As a producer of award winning horror films, I know a fake scream with genuine sadness.

He even refused to give us access to her (our) house while he pilfered the place of any evidence against him. He was handed any evidence that might have exposed his crime: Her cell phone, computer, any letters, notes, records etc. Because he wears a huge Christian Cross, the Christian Taliban Chief of Police protected him and I guess is still protecting him.

By now we should have been provided with a copy of the autopsy, that allegedly has not been completed which I believe is total bullshit. Even more evidence of a coverup in my opinion.

George.

You and everyone else knows that I not only did not kill Karen, I had nothing to do with why she killed herself. Her letter, the investigation and all of the text and docs tell why she killed herself and what lead up to it. Per law enforcement and mental health professionals Jess is a pathological liar and a sexual predator that gets his victims thru mental manipulation when they are mentally compromised. He will pay for his actions I assure you.

She killed herself as she stated in her letter because she could not forgive herself for what she had done and the shame and humiliation she felt she brought to all of us. When she quit taking the antidepressants 10 days before she died everything she had done would have been piling up in her mind and she realized all of these things and what they would bring about as the came to light.

She not only had the affair (which she did 100% because of the lies Jess told her and she told me that multiple times before she died. She wanted me to hurt like she hurt and feel what she felt, and when she found out I had not done any of

the things he told her I did she could not get past it) but he had also talked her into several other things that would have also gone against everything she was made of. Only a few people are aware of these other things and I will not disclose them due to potential legal proceedings and they will not help any of her family by knowing them.

So you are aware she told me 3 days before she died and also wrote in a letter she left in her computer that she had been gang raped right after she moved to SMU at 17 years old and that one of the rapist was Dale that she ended up marrying. She said she went to a party at an apt and took GHB and when she woke up she was naked on a bed with Dale on top of her and several others had already fucked her while she was passed out. My psychiatrist said that what most likely made her inherited BiPolar disorder begin to escalate was the rape as it is almost always the case that a traumatic sexual event causes this escalation.

She did these things with Jess as she was BiPolar and had not taken medication for the manic side of her condition in over 4 years which had her not having any understanding of these things when she did them or the consequences associated with them. While in this manic state she was easy prey for Jess to lie to her about me, her family and everything in her life and she believe it. I listened to her pour her heart out for 4 days before she killed herself that she did not know why she did these things but he made them seem so real and all she wanted to do when she discovered this was to make them have never happened. She laid on the floor crying for me to make them not have happened and to bring her back home and all I could do was tell her that I forgave her and would be with her forever. He had not only lied to her telling her I had affairs that I did not ever have but also that her family did not understand her and never would. That only he could understand and love her. This was not only told to me by her but also contained in recovered text messages and her daily journals. That sick mother fucker lied to her to build a world that only he help her with and reading the shit he told her makes me sick at my stomach.

When she called me on the Friday before she died and said she wanted to come home that weekend and she had some things to tell me she had already packed her things to move home, scheduled an appt, with her therapist to figure out how to tell me what she had done and restore our marriage and told several people that she had done some things she wished she hadn't but was going to come home and tell me and work it out. She was trying her best to get out there what she had done and be able to rebuild her family with me and Grace.

When she told me that Saturday morning what she had done and found out I had not done anything with anyone else, I forgave her 100% and told her to just come home and be my wife and Graces mother. The other things she had done but had not told me were weighing heavily on her and I am sure she did not know how she would overcome them as they came out. I wish she would have just told me so I could have forgiven her and moved on, but she did not.

I loved Karen beyond words and you know for a fact that I never wanted her to move out and I wanted her to come home. I only knew at the time that she was not thing realistically about many things and was angry, but I did not know she was not taking her medication and that was what was causing this. I wish I would have not have let her move out and I wish that when she told me in early January that Jess was a liar and would cause problems that I would have fired him then, but she would not tell me why she said that. The day before she died she reminded me of this and told me he was the greatest liar of all and would continue to lie to everyone to make it look it was her fault.

The lies that Jess told her to get her to do things that were against everything she believed is what caused her to kill herself. You telling people I killer her is fucking lie and I will not tolerate you continuing to spread lies about me.

I miss her every second of everyday and Grace will grow up without her mother so do not continue to do or say things that cause anyone any more pain that has already happened.

I was told by Attorney Hans Barcus that the two checks were sent to him by your office, when I drove to Livingston to pick them up as agreed by Frank Robinson, and he told me that when I refused to sign the fraudulent attempt to steal our \$100K, he sent them back to your firm. Regardless of the legality of what your firm did or did not do, I was told that the checks were in your possession.

Frank Robinson, had no legal right to steal our \$100K and then use it to defraud us of the \$100K unless we signed an illegal and fraudulent document absolving him of any role in the murder of our daughter or the loss of around of a million dollars invested based on FRAUDULENT INDUCEMENT.

THERE WAS ZERO AGREEMENT BETWEEN ME AND FRANK ROBINSON TO WITHHOLD OUR \$100K. He told me multiple times that the checks would be ready for me to pick up and there were NO RESTRICTIONS as he had zero legal right to restrict you from giving us the check as promised, and you had ZERO legal right to not have presented the check to me when I came to claim the return of our \$100K. He then pretended that OUR money was HIS and that he was using our money to bribe/coerce us to sign the insane document in order to gain possession of our OWN MONEY. Then he was going to send us a 1099 so that we would have to pay income taxes on OUR OWN MONEY and then he would write off the \$100K as a business expense, thus defrauding the IRS.

When you played along with that fraud without question and thrust the document in front of me for my signature without being able to read it, unless I insisted and then when I insisted on a copy that took a very long time, it appears to me that you became an agent of theft and fraud and a potential IRS investigation.

So you may believe that you are not involved but think again.

I have been led to believe by Attorney Hans Barcus that he returned our \$100K and my wife's \$40,000 checks to you.

So please find out where our MISSING CHECK IS AND IF YOU HAVE IT IN YOUR POSSESSION AS I HAVE BEEN TOLD BY THE ATTORNEY THEN PLEASE DELIVER IT TO ME BY COURIER NLT tomorrow by 5 pm.. I will then sign a document that I FINALLY RECEIVED the \$100K check WITHOUT PROMISED INTEREST, absolving your firm of liability and also not holding your firm responsible in any libability for the failure to provide the promised interest payment

For some mysterious reason my wife's \$40K check showed up and she deposited it without any bogus or fraudulent restrictions.

Thanks.

You may wish to believe that you are not involved but by believing Frank's attempted fraud, and you believing his FRAUDULENT ATTEMPT TO STEAL OUR MONEY UNLESS WE SIGNED AN ILLEGAL AND FRAUDULENT DOCUMENT THAT YOUR STAFF THRUST IN FROM OF ME FOR MY SIGNATURE WITHOUT BENEFIT OF SHOWING ME THE LANGUAGE IN THE DOCUMENT, YOU INVOLVED YOUR FIRM IN THIS FRAUD AND THEFT OF OUR \$100K.

Your firm's involvement was cemented with the FALSE STATEMENT: "...there was some agreement between you and Mr. Robinson that we were not a part of. He needed a document signed of on before funds could be released..."

HELLO!!! WHERE YOU BORN YESTERDAY? WHAT AGREEMENT? WHERE IS A COPY OF THE AGREEMENT SIGNED OFF BY ME? YOU FAILED TO DO DUE DILIGENCE AND THUS BECAME PART AND PARTY TO THE FRAUD.

So do you have our check for \$100K? If not, where is it?

I have asked the detective investigating the death of our daughter to track down our \$100K.

So bottom line: DOES YOUR FIRM HAVE OUR CHECK FOR \$100K as we were told by Attorney Hans Barcus? If not where is it?

It is very disturbing that your firm allowed itself to get tangled up in a very serious attempt to defraud us out of our \$100K, much less the interest that was to have accompanied it as well as interest on the \$40K that my wife loaned for 30 days that turned out to be years instead of days.

- 1. Why would you return our \$100K to Frank without notice or our approval?
- 2. Who instructed you to return the two checks to Brian Cantrell? Certainly not I.
- 3. What legal authority did you rely on to destroy our check for \$100K.
- 4. What legal authority did you rely on to write a check with our \$100K to Frank?
- 5. Why would you contract with Brian Cantrell, who is our attorney to attempt for a second time for us to sign the insane release in order to have OUR OWN \$100K returned to us? How much did your firm offer to pay Cantrell to follow your instructions?
- 6. As the \$100K was NEVER Frank's and was ALWAYS ours, what legal authority did you rely on to GIVE our \$100K to Frank?

Your firm had no legal authority to attempt to coerce us into signing a totally insane document that would absolve Frank of any and all liabilities associated with the fraudulent inducement to loan his trailer factory \$650K cash plus interest that we are still paying on a \$300K note he fraudulently induced us to sign.

Mailing both checks to Frank was bad enough but destroying the check for our \$100K and GIVING our \$100K to Frank was a serious crime in my opinion.

Frank's attorney that allegedly drew up the "insane" release was NOT Brian Cantrell or Hans Barcus. I'm surprised that they allowed themselves to get tangled up in this mess.

Perhaps the detective who has been investigating the death of our daughter can also investigate the theft of our \$100K and the potential role of your firm in the theft.

We received both checks back a few weeks ago with the instruction that Sue could pick hers up and that the other check was the destroyed and rewritten to Frank.

George we only did with Franks money as he asked us to do, we have no information in regards to loans or owed money. Whatever arrangement you have with him is between you and Frank. I've spoken with Frank and he has your money but

Furthermore as a title company we only pay off filed liens or AJs attached to the property being sold.

If Frank decides he wants to leave a check for you to pick up it's under his discretion.

Botton line: It was NEVER Frank's money. At the very least you should have demanded that Frank show you proof that the money was his and that he was going to use our money to bribe us into letting him of the hook for defrauding us out of what will be more than a million dollars and causing the death of our daughter for a large amount of insurance and her half of the Community Property.

I can't deal with a dangerous man who has threatened to kill me more than once.

Since my money is now in Walker County perhaps I can get the help of the Texas Rangers or FBI. Frank is PROTECTED by local law enforcement, as a member of the Organized Crime gang that has ruled Walker and San Jacinto and Trinity Counties since at least Dec 31, 1879.

I believe that Detective Hammond is a good and honorable man, but from my perspective he is afraid for his job if he puts too much pressure on Frank.

I have been watching how these things work in Walker County since at least 1968.

Big Red Flag: Why would a property transaction take place in a Title Company two counties E. of Walker County?

Kevin:

I realize that you are attempting to do your job to expose and arrest Karen's murderer and direct him to prison but you are working for a Satanicly evil christian taliban sharia law chief of police who purposefully allowed a gang of druggies to invade our \$600K home at 1700 Ave S and torch it. He knows the names of the arsonists as well as the other criminals but has done ZERO to have them arrested and charged with at least \$400K in uninsured damages.

Using religious extremism to punish me for NOT being his kind of insane christian is UNCONSTITUTIONAL but he can get by with that due to being protected by the GIBBS MAFIA that protects FRANK as being a legacy of his ethically bankrupt grandfather whore of the Gibbs Mafia.

Because I do not thump bibles at his same cadence he is filled with hatred against me and LOVES FRANK because he wears a huge cross round his neck meaning according to the psycho chief that he has NOT committed a crime because he personally told me "ONCE SAVED ALWAYS SAVED AND ALL FUTURE SINS ARE PRE-FORGIVEN IN ADVANCE."

So Frank can kill, kill, steal, lie, defraud etc. at will but he has NOT committed a crime according to the psycho-chief because he has that cross around his neck.

I just wish that you had your 20 years in so that you could actually do your job without fear of being fired, of which I know you are capable and expose the corrupt chief and then go after murderous Frank.

Please conduct research on the acts and actions of psychopathic narcissists. You will find that Frank meets virtually all of the red flags!!! As long as the Gibbs Mafia and hate filled Chief of Police that purposefully allowed druggies to invade our \$500K house at 1700 Avenue S and then allowed two known arsonists to start a fire that eventually caused the meth lab in the basement to blow the house up, refuses to allow you to do your job then Frank will avoid any culpability for the crimes committed against Karen, resulting in her death.

The cops refused to drug test him at the scene of the "murder" after being asked to do so multiple times. There were discarded gloves on the ground adjacent to where Frank threw her out on the ground and refused to allow the neighbor to determine if she still had a pulse. When I questioned the discarded gloves I was told by the cops that the gloves where thrown out by EMS which I find absurd as no EMS employees would ever toss tainted gloves out on the ground and leave them there. I should have picked them up and placed them in a plastic bag as evidence but under the stress of the moment I stupidly believed the cops at the scene.

As Frank was the classic PRIME SUSPECT, the cops gave him the potential evidence that could have hung him by allowing him to take over her house that he had no legal rights to, gave him her cell phone and computer and all other potential evidence that he could destroy.

These were, in my opinion, criminal acts on the part of the police as allowed by the Gibbs Mafia Chief of Police, who told me that I am going to burn in the fires of hell and that Jesus is in favor of executing innocent people "so that they can be with Jesus earlier". This kind of psychotic abuse of religion to punish me for NOT being his kind of Bible Thumping Christian is an egregious UNCONSTITUTIONAL abuse of power.

The DA is a Gibbs Mafia loyalist and thus has done nothing to my knowledge although asked to investigate at least three times.

BOTTOM LINE:

Karen was happy, (unless being harassed and intimidated by Frank), was always smiling and helping anyone in need. Look!!! I was her father and she was always filled with happiness and glee to be with me, her mother, her sisters and brother and Kristi Zeltner, her adoptive sister.

Frank spent at least two years planning her death as she had to have had insurance to reward him for at least two years or USAA would not have given him and Grace the money. As he had no further use for her as he had defrauded us out of our retirement savings and squandered them and then got us \$300K in debt of which we still owe the bank \$230K and he knew that she would no longer keep him out of jail or federal prison by attempting to balance the books on his sketchy business dealings. He wanted another child (preferably a son) but she had her tubes tied. And with her dead there was no chance that under oath in an IRS or other investigation she would not be able to testify as to the truth in regard to his sketchy dealings.

So Frank had ZERO use for her and she was a potential danger to him and he, as always, needed money to waste, so I believe came out at least \$2 million ahead by killing her.

He was partying at the scene of her "murder" and has been especially partying with the insurance and other proceeds, such as not losing half of the community property.

He NEVER loved her, was NEVER kind to her, always kept her as a virtual SLAVE to cater to is every whim, and planned to be rid of her for his net financial benefit when the time was ripe.

I have tried to get the FBI and Texas Rangers involved but they won't investigate unless asked by the DA which will not happen in Walker County.

There are numerous laws associated with keeping a person a prisoner, years of abuse, pushing a person to potential suicide as the ONLY means of escape from serious continuous abuse, including telling a person she is crazy, a whore, not worth living, and cannot escape from his evil clutches. Allegedly he bragged to one of Karen's friends at around 4 am shortly before she was killed that "I HAVE BROKEN HER", which should be further proof that her death can be directly attributed to Frank.

We believe that this was a form of PRE-MEDITATED MURDER as he had obviously been planning her death for a very long time.

We have still not seen the autopsy report. Statistically, women only gut shoot themselves while under extreme psychological distress from being forced to return to endless abuse from which there is no escape except death.

There is also the element of ELDER ABUSE, FRAUD, THEFT of our remaining liquid savings based on lies, fraudulent inducement, false promises and other abuses that are considered taking advantage of senior citizens for personal profit.

Have you asked for help to investigate the blatant pre-meditated murder of our daughter, which is becoming more and more evident? Frank was celebrating at her home after she was killed, has is appears, to have collected a large sum of insurance money and has been happily traveling First Class, partying down at the in ground swimming pool that I financed and has shown ZERO GENUINE REMORSE.

Elder abuse via FRAUD is a crime in Texas.

The body is received in a black body bag which is sealed with red tag number "Huntsville PD 1215". A tag with "21-0275 (sic) Karen Robinson" extends through the body bag zipper. Photographs and fingerprints are taken.

CLOTHING AND PERSONAL EFFECTS: When first viewed, the body is clad in a gray printed sweatshirt, black tank top, and black sports bra which have been cut secondary to medical intervention. The body is also clad in black leggings, lavender underwear, a gray sock on each foot, and a multicolored blue sneaker on the left foot. Abundant blood is over the gray sweatshirt, black tank top, and black sports bra. Blood is also over the front of the underwear and the front top portion of the leggings. A black elastic hair band is worn in the hair. The clothing, sneaker, and hair band are retained as evidence. Perforations corresponding in location to the gunshot wounds of the body are identified in the sweatshirt, black tank top, and sports bra, and are described in conjunction with the wounds of the body below. A white and yellow metal ring is worn on the left ring finger. The ring is released with the decedent's body as property.

EXTERNAL APPEARANCE: The body is that of a normally-developed, 66 inch, 110 pound white female whose appearance is consistent with the given age of 40 years. A perforating gunshot wound of the chest is subsequently described under "Evidence of Injury". When first viewed, abundant plant debris and scanty broken glass fragments are over the surfaces of the body and clothing and within the body bag. The straight to slightly wavy blond to light brown hair measures up to approximately 16 inches. The nose and facial bones are intact. Cosmetics including foundation and eye makeup are worn on the face. A clear contact lens is within each eye and are released with the decedent's body. The eyes have blue irides. POSTMORTEM CHANGES: There is marked rigor mortis of the upper and lower extremities, neck, and jaw. Lividity is blanching, pink-purple, and posterior in the dependent areas. The body is cold, subsequent to refrigeration.

SCARS AND IDENTIFYING MARKS: The ventral left forearm contains 4 thin vertical to oblique linear scars ranging from 1-3/4 to 2-1/4 inches. The ventral right forearm contains 6 similar thin linear vertical to oblique scars ranging from 1-1/4 to 1-1/2 inches

THERAPEUTIC INTERVENTION: Multiple electrocardiogram pads are over the body. When first viewed, a clear gel adhesive bandage covers a gunshot entrance wound of the left chest and an additional clear gel adhesive bandage covers a gunshot exit wound of the left mid back. The gel bandages are photographed and discarded.

EVIDENCE OF INJURY, EXTERNAL AND INTERNAL:

Sole

- I. Gunshot wound of chest: A single gunshot wound perforates the chest. The directions are stated with reference to the standard anatomical planes with the body measured in the horizontal position.
 - A. Entrance: A gunshot entrance wound is located on the left chest beneath the breast, centered approximately 18 inches below the top of the head and 3-3/4 inches left of midline. It consists of a 5/16 inch circular perforation with a prominent surrounding marginal abrasion ranging from 5/16-1/2 inch in width. The marginal abrasion contains dense soot and exhibits focal searing of the skin. The adjacent skin has no stippling. The overlying gray sweatshirt has a perforation corresponding in location to the site of this entrance wound which is 2 inches in vertical dimension and ¾ inch in horizontal dimension, has seared irregular edges, and has dark gray soot deposited around the edges of the perforation. The black tank top and black sports bra each have a defect corresponding in location to the site of the entrance wound which are each approximately 1 inch in diameter and have seared irregular edges without visible soot (NOTE: The dark/black color of the tank top and sports bra hinders the visualization of soot. The defects in the tank top and sports bra corresponding to the entrance wound have each been cut through secondary to medical intervention).
 - B. Track: The bullet perforates the left chest skin and subcutaneous tissue, the anterior left chest wall skeletal muscle, the anterior left fifth intercostal muscle, the anterior pericardial sac, the left anterior descending coronary artery, the anterior wall of the left ventricle (creating an irregular 2-1/2 inch full-thickness defect the anterior left ventricle with jagged edges), and the posterior wall of the left ventricle, creating an irregular 2-3/4 inch defect with jagged edges. A 1-1/8 inch linear torn defect involves epicardial surface of the posterior the left ventricle. The bullet then perforates the left posterior lateral pericardial sac, the superior medial pleural surface of the lower lobe of the left lung, perforates the lower lobe of the left lung and exits the posterior pleural surface of the lower lobe of the left lung. The bullet then perforates the posterior medial left ninth rib, left back skeletal muscle, left back subcutaneous tissue, and left back skin, where it exits. A small amount of granular black soot is deposited within the left chest wall skeletal muscle surrounding the wound track. Bright red-pink discoloration involves the anterior left chest skeletal muscle surrounding the wound track. Associated injuries include left hemothorax (1300 mL), left lung atelectasis, hemopericardium (50 mL), hemorrhage of the left lower lung lobe surrounding the wound track, and a 3 inch area of contusion of the anterior upper lobe of the left lung.
 - C. Exit: The site of exit is at the left mid back centered approximately 18 inches below the top of the head and 2-1/4 inches left of midline. The exit wound consists of a stellate to slit-like perforation which is 3/8 inch in vertical dimension and 1/4 inch in horizontal dimension, with an abraded border ranging from 1/16-1/8 inch which surrounds the wound in an oval configuration. The exit wound characteristics are those of a shored exit. An area of dark purple contusion—ecchymosis which is 2-1/4 inches in horizontal dimension and 1-3/4 inches in vertical dimension surrounds the wound and has an oblique linear pattern. The adjacent skin has no soot or stippling. The overlying sports bra has a ¼ inch perforation and the black tank undershirt and gray sweatshirt each have a 3/8 inch perforation corresponding in location to the site of this exit wound. Gunpowder residue is not visible on the clothing at the perforations corresponding in location to the exit wound.
 - D. Course and direction: The direction of this bullet is from front to back and slightly left to right.

II. Blunt injuries:

A 1/4 inch dry red abrasion is on the dorsal surface of the right thumb.

The lateral left thigh has a 1 inch area of patchy faint blue contusion. A 3/8 inch oval purple contusion is at the anterior upper left thigh. Two oval faint green contusions each approximately 3/4 inch are on the anterior lower left thigh. The upper left shin has 2 faint oval blue contusions each

Subject: MURDER EVIDENCE

The evidence of Frank desperate to murder Karen for at least a million dollars is becoming more and more evident.

He NEVER loved her. Only seduced her to get to our money and when he had 'stolen' all of our money he had no use for her and tricked her into believing that she was DIVORCED but if so he would not have lost the ability to cheat her son out of his part of her estate.

LOOK AT THE EVIDENCE!!! Threw her out into the dirt and refused to allow a neighbor to see if she might be still alive.

He HATED her and wanted her dead. There is evidence that he pushed her over the edge and ORDERED HER TO KILL HERSELF!!!

I know that he is a part of ORGANIZED CRIME that has ruled Walker County since December 31, 1879 and is thus protected just like CRIMINAL JOHN KERR SMITHER who has criminally trespassed on our properties multiple times and has destroyed tens of thousands of dollars worth of our trees.

The TOTALLY CORRUPT CHIEF OF POLICE allowed a DRUG GANG to operate out of our \$600K property at 1700 Ave S. And allowed the METH LAB to blow up and do at least \$500K in damages. He hates our church and told me that JESUS LOVES FOR INNOCENT PEOPLE TO BE PUT TO DEATH SO THAT THEY CAN BE WITH JESUS SOONER.

He needs to be FIRED IMMEDIATELY and the City should pay us at least \$500K for damages.

Hopefully you are NOT UNDER DURESS to cover up for the MURDER!!!

Just hit me like a freight train. Karen came to church to celebrate that her divorce was final just before she was killed. Frank secretly added another 30 days to the finalization without her knowledge. Thus he was still secretly and technically her husband and thus would inherit her 50% of the community property which was way more than the paltry sum she agreed to for herself just to get rid of the monster.

In addition to attempt to defraud and take control of her adult son's from her first marriage's insurance policy and William's part of her half of the community property, he made sure that he would be cut out to add to the at least a MILLION DOLLARS that he would gain from her death.

For the record: He and Grace have NEVER gone to visit Karen's grave, except during the burial on Easter Sunday, although he stated that he and she would visit very FREQUENTLY and didn't even bother to go on Mother's Day or other days when he said they would go.

I NEVER saw him show any genuine love for Karen over 14 years, but observed his obsession with mean spirited control and would even refuse to give her living expenses unless she was his SLAVE working 7 days a week.

He turned the child against Karen by telling her that she didn't have to mind her mother because her mother was CRAZY and her brain was sick and incurable. He trained her to be rude and arrogant which I am sure helped Karen believe that life was not worth living especially when according to good authority Frank harassed her all night and bragged that he had "broken her" around 4 am and then demanded that she kill herself just before she was "murdered".

He admitted that she was suicidal just before she was "killed" but never bothered to get her help or even let any of her family know. I COULD EASILY HAVE SAVED HER LIFE HAD I KNOWN!!! But he obviously wanted her dead and he succeeded in that psychotic mission.

With her dead, he is way over a MILLION DOLLARS AHEAD IN HIS EVIL MURDEROUS GAME.

I know that your situation is VERY DIFFICULT considering the fact that he is a legacy of his pathetic GIBBS MAFIA grandfather.

Please keep in mind that he bragged around town that he was going after our daughter for OUR MONEY which he ended up getting and wasting on in -ground swimming pool, Jeep Rubicon, expensive vacations and paying a known former? cocaine dealer around \$250K out of our money and we now owe his bank \$240K that he got us in debt with while destroying the rest of our investment in his trailer factory based on a guaranteed \$200K per year to help us with our philanthropy.

Today he was apparently attempting us to spend \$2,500 for a Magnolia Tree for her grave that she SPECIFICALLY wanted to be planted at the ranch next to the swimming pool that we financed with no interest and had a hard time being reimbursed for.

Sue set him straight today and Choo Choo, our Museum District guardian took a photo of Frank in front of one of our museums taking photos of our museums and for what reason?

Allegedly he was telling folks that we are still worth \$30 million, no doubt from the documents we gave the bank so that we could be screwed out of an additional \$300K hocking the factory itself.

Looking thru some of Karen's messages she did not delete and this was in a conversation with her friend Jenny and you can see the reference to the hookers in Mexico. Just wanted you to ki that when she told me that Jess had told her I was with hookers in Mexico and I relayed that to you it was the truth. I er stand his lying to her was not a crime but wanted to know she was truth her story.

we will catch up.

Well make sure you get what is yours. Is he going to let you have full custody of Grace?

My main concern at this point is his emotional stability & drug & alcohol use when Grace is with him. We are doing 50/50, but I will have her a lot more than that b/c he travels for work & pleasure. He will leave for vacation in Mexico next weekend

he falls in love with one of the hookers he has scheduled & decides to not come back

Do you trust him to do 50/50? Are you able to have that conversation with him? I assume you could make a case against his access if you have proof of his

Good morning

I wanted to see if I can stop by and get the Prestige phone and computer from you? Let me know.

Also, so I am full disclosure Karens reference to drug use is I have participated in smoking a joint occasionally but I have not done anything else in over 20 years, and I have never smoked around any child. Karen was clearly trying to make her case with Jenny and was definitely fully under the assumption at this point that I had moved on and was responding to Jess accordingly. The more I find out, the more I understand how mentally comprised she had gotten. As she said at the end and in her letter, she was not herself anymore, and that is what is so said.

I have also contacted Clint McCrae to ask for assistance in looking into the issue of Jess taking the naked pictures of women without their knowledge that Jess showed off and the more I think about it the more likely I think it is that he would definitely not missed the opportunity to have taken them of Karen. She was physically stunning and I do not think he could have

Detective.

I dropped his Prestige computer and phone by. The phone looks like he tried to destroy is so likely a reason behind that. My warehouse manager picked these up with company truck around 8-9 am on the 27th. I had fired him around 5 am that morning. So when this happened Karen was alive and had just come clean. Curious now what is in the phone. Give me a call when free.

I know yall have access to the texts so you have seen the back and forth discussion and me asking lots of questions what and how it had happened and much of this she answered when we talked, as I think now she had gotten conditioned to how he taught her to not have anything incriminating in writing. When we talked over those days she was very emotional during the process but would speak very freely and lots of what she said did not apply at the time to what I wanted to know, but now lots of things clearly had more meaning than I recognized.

He was never in any of the pictures but they were clearly all in the same bedroom.

- All of the pictures were taken from the same 2 angles and I at one point asked was he using a tripod. I was curious enough wondering how he got all of them to take these. He said no just cameras in the same place.
- > What I learned from Karen. As I remembered that Jess had shown me all of the pics on his phone, when I was talking to Karen after becoming aware of her affair I asked her had he taken any pictures of her. She said not that she knew of and why was I asking. I told her about all the pics he had shown me and she got quite and said she did not think he had as she would not have allowed it and reminded me she was modest about being photographed with her body. I asked her where they had most of their physical activity and she said in his room on the bed and that he kept it dim lit so she did not think he took pics. She said that he always had stuff stacked on his dresser but she did not see the cameras and the lights were not real bright so she was not sure. She said that much of the time he would get her to lay on the bed in lingerie or short shorts and play with herself and then he would get her to undress. She said he usually stood back by the dresser when she was doing this and directed her and masturbated. She told me this I think hoping it would lessen what she had done as she said this occurred much of the time and was how he always started things. She said most of the time after this they would go to sleep if she did not go home. As she told me it started sounding a lot like what the pics I saw were but I did not say that as she was freaking out he may have photographed her. I found several knew sets of Lingerie that I do not think she would have bought in a bag at her house as well as the vibrator he bought her. I threw most of the lingerie out and I have the vibrator hidden in a drawer as I thought I might send it back to him at some point. She had told me about him giving her the vibrator for a Xmas present but had not ever told me where it was and I had not asked. Remember she was worried that he would disclose things to me that would make me take Grace away from her and this being used would have scared the shit out of her.
- > What I learned from Autumn. She is what me started putting 2 and 2 together. When we talked I told her he has shown me lots of pictures of naked girls at his house and they looked like they did not know they were getting taken. She then told me about him constantly keeping game cameras on his dresser and shelf and that kept removing them as they made her uncomfortable. She said he kept putting them back and told her to leave them there so he could remember to take them to deer camp. He had lots of these cameras and real high end night time ones as I hunted with him. She said one day she went in to change into her swim suit and felt very uncomfortable. She said the cameras were back and when she went over they were on and taking pictures of her. She said she crushed them up. My guess is he was using these. She is also the one that told me to not trust Scott Nichols as he and Jess had a history together and made it sound like it related to sex pictures or weird sex things. She said Scott will defend Jess and has plenty of money to do it. I know this to be true and Scott is the one that confronted George Spentos last week and told him he need to hear Jess's story and see the text that supported it. That was there story of being in love and going to have a life together but I stopped her and made her kill herself. She started to tell me about Scott doing something to her and then stopped and changed subjects. Please do not contact Autumn at this point and when you do I do want it to be where she knows I shared this. She is scared of him and the guys out there as a whole I think.
- > I talked to Conrad this morning and asked him if I could talk to Amber about Jess and any potential pictures of her as I wanted to relay that info to you. He said he did not see a problem with it and would have her call me today. I will advise when I hear from her.
- > I am hesitant to talk to the Valerie lady about it as she is the one that was dating him also up until she discovered 2 days after Karen died that she was not the only one, and she called someone at HPD who told her yes Jess was involved with Karen and she had killed herself. She spent over an hour when we initially talked after the FB messaged me asking if we could talk. She told me about their first relations ship when she was married and details about the recent one until Karen died. Then after I messaged her back to get tested for Herpes she said she was in denial now and she was only friends with him. I am 99% sure he has talked to her as he also called Amber and I think referenced some of what I had talked about with her. I think Valerie is still under his guidance.

Detective.

I went thru Karen's house multiple time and so did her sisters. The main thing we were looking for was her wedding ring. It is approx \$35k diamond on platinum with diamonds around it and we did not find it.

One of the things Karen had said that last few days was that he had told her to get rid of anything that connected to me as that was part of moving on away from me and with him. I never asked her if she did but she told me that was one of his demands. The only things we can't find is that ring, about 15-20 large framed pictures from our wedding and of us and her journals for the past 4 months which she wrote in daily.

The ring is insured and I will turn it in to insurance but can you see if it was sold locally to pawn shop before I turn it in. I asked Ernst and he said no he hadn't seen Karen in several months and she likely would not have done it there as me and Robert are lifelong friends. She didn't need the money and placed no value on objects so she might have just thrown it out in the yard if he caught her at the right time.

She took it from my house early to mid Feb. That is when I noticed it missing from jewelry drawer as it was there the first month she was gone.

let me know or if I should just turn it in to insurance.

Also, when done with company phone let me know. If you didn't get it dumped I will send off then I need to trade in as it is insured.

Thanks.

Tried to contact you. I was not in the office this morning. According to our tech guy he can not get anything off the phone due to it being wiped or the computer due to the password. I checked pawn shops for the ring and did not see anything under Karen's name.

I just looked back on my Ring last week and found this as I could not remember her actually arriving. Now I am glad I did.

Below is the Ring video from my house on 3/26 and is when she had come home about 30 minutes after calling and telling me it was her weekend with Grace and she would like to come spend it with me if ok. I was happy as hell as she had not slept a night at my house for a couple of months and seeing her lean up and kiss me has a lot of meaning. Since mid Jan when I would try to even kiss her saying goodbye she would turn her head (I wish I would have known then what I know now), so seeing her walking up smiling and leaning up to kiss me was great. She walked in and said I need to talk to you about some things this weekend and see if we can get past them. We know now what was to come.

Kevin.

As I have heard from several judges, attorneys and LEO's expressing concern that I will go after Jess and put myself in a bad legal situation, I want to be on the record stating that it will NOT happen on my end. While I am not happy with what he has done and the fact he is now trying to lie his way back into society, I have a 9 yo daughter to raise that takes priority over everything else So please advise anyone that is interested that I am not going to make threats to him or carry out any illegal activity against him on my end. Any of my previous statements have been out there to advise others of this predator and to hopefully change his mind about living in this community, and in none of them have I threatened him. I am counting on enough evidence that he has committed a criminal act will end up surfacing and he will be prosecuted. I feel like that will happen.

Thanks for all of your help.

Sorry. I'm at work. Have to talk later

Autumn, it's Erin Dubcak. I've held off on this message as long I could, but after attending my best friend's little sister's funeral on Sunday I can hold back no longer. I know from their family you're the one that maliciously gossiped about Jess & Karen. What has happened to you? When did you become THIS person? Your actions put into motion the death of a beautiful young woman who was so loved by her family AND Jess. Your actions have left children motherless, parents childless, siblings heartbroken and Jess without the love of his life. You have blood on your hands and you have to live with that every day for the rest of your life. What a broken person you must be.

Karen's family is so thankful for

UC.

Karen's family is so thankful for Jess and all the love he provided her with. I'm so glad they all have one another during this tragic time. And no, Jess doesn't know I'm sending this. But after a week of being surrounded by utter heartbreak I couldn't stay silent. Everyone knows what you and Kimberley did. Everyone.

May this be a lesson for you to keep your fucking mouth shut.

This is what Erin sent me

Wow. That is all I can say.

Jess is texting me asking if I have had any correspondence with you. Tallon is with him. Please don't say anything

I won't for sure. I promise.

https://mail.google.com/mail/u/0/?ik=0145b96b17&view=pt&search=all&permthid=thread-f%3A1698228870138105995&simpl=msg-f%3A169822887...

I confronted the family this morning about them about texting him support and said it came from people we are both friends from.

Ok. Thank you. I'm so nervous about all of this. It took a lot for me to reach out to you.

I know and I thank you. I will not say anything came from you and I am not a liar like he is.

But I would like to talk more with you.

Me too. Thank you.

I am going to send you a text that I got from her best friend today. Karen sent to her on Monday before she killed herself. She was so worried Jess was going to tell everyone she did it and she would lose Grace. I fell so bad for Karen and Grace.

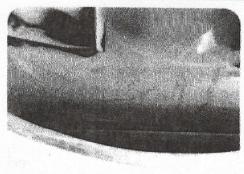

Karen said Jess repeatedly told her to get rid of any electronic evidence of what was happening and not to tell anyone or her shrink as it could be used in the divorce if I found it and she would lose Grace. She said that he said it so much it sounded like a threat to her he would tell if she left him but he always followed up with telling her he was the only that understood her and cared about and loved her. She said looking back she can't believe that she ever believed any of it but he was always so sincere.

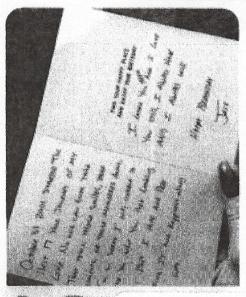

What is that?

Well he carved this on my Jeep 2 years ago. I matched his handwriting perfect to the way he wrote his B's

But of course denied it

It was behind my tire where you couldn't really see it

> He is psychopathic and a pathological liar.

His handwriting

Yep. For sure. He was to smart to ever give Karen anything in writing. Only texts and he told her to get rid of them. He has the only so he can only show what he wants everyone to see. She told me she was worried he would do that the day before she died. She was so worried about it coming out and what he would say that she killed herself to avoid it.

Jess got almost 30k in commissions just 2 days before I fired him.

He told me \$60,000

He had a job that paid \$300-400k.

He told me he was broke He didn't make anything

I'll send you the amounts

I'll send you the amounts because I saw where he emailed Karen the day before it deposited to ask how much. I think it was like \$30k gross and \$20k ish net.

This was text from Karen to her best friend Paige that also works from her. She sent it the night before she died. Also found out from Paige yesterday that Jess tried moves in her right when he started and had several inappropriate one way conversations with her. Her husband is also wanting to see Jess now.

Kevin.

I spent last night going thru my text messages with Karen from the time she disclosed her relationship with Jess until she passed, and also thinking about all of the things she told me during that 4 days. I know yall have access to the texts so you have seen the back and forth discussion and me asking lots of questions what and how it had happened and much of this she answered when we talked, as I think now she had gotten conditioned to how he taught her to not have anything incriminating in writing. When we talked over those days she was very emotional during the process but would speak very freely and lots of what she said did not apply at the time to what I wanted to know, but now lots of things clearly had more meaning than I recognized.

As it sounds like there is not much road to go on prosecuting someone for lying so extensively to another person that they commit and act that causes them to take there on life, I will concentrate on what is pertinent to the pictures of naked women that they likely did not know what happening.

Below is what I know based on being told by Karen and Autumn, and what Jess showed me and several others at our office on multiple occasions.

Jess showed me pictures of naked girls on probably 12-15 occasions while at our office and also on a business trip with me to Denver. Probably between Oct and early Jan. He stopped at what we now know was the time he started working on

- · What I do remember about the pictures is they were all on the same bed with the same sheets and covers. I even commented to him that he needed to change his sheets, and he said "Why they smell so good".
- All of the women seemed to be either posing or relaxing and some were in lingerie, some were naked and some the women were pleasuring themselves. One of the ladies that called me after my FB posts was in some of the pics I am pretty sure and I remember him telling me that one of them was a Dr from the Woodlands he was seeing.
- None of them were ever looking at the camera and none of them looked like they knew they were getting photographed. Speculative but what I remember and I remember that he said he liked to catch them in their natural state.
- · The room always had low light but you could see their bodies were very visible like the picture were from a camera that takes good night pics.
- He was never in any of the pictures but they were clearly all in the same bedroom.
- All of the pictures were taken from the same 2 angles and I at one point asked was he using a tripod. I was curious enough wondering how he got all of them to take these. He said no just cameras in the same place.

What I learned from Karen. As I remembered that Jess had shown me all of the pics on his phone, when I was talking to Karen after becoming aware of her affair I asked her had he taken any pictures of her. She said not that she knew of and why was I asking. I told her about all the pics he had shown me and she got quite and said she did not think he had as she would not have allowed it and reminded me she was modest about being photographed with her body. I asked her where they had most of their physical activity and she said in his room on the bed and that he kept it dim lit so she did not think he took pics. She said that he always had stuff stacked on his dresser but she did not see the cameras and the lights were not real bright so she was not sure. She said that much of the time he would get her to lay on the bed in lingerie or short shorts and play with herself and then he would get her to undress. She said he usually stood back by the dresser when she was doing this and directed her and masturbated. She told me this I think hoping it would lessen what she had done as she said this occurred much of the time and was how he always started things. She said most of the time after this they would go to sleep if she did not go home. As she told me it started sounding a lot like what the pics I saw were but I did not say that as she was freaking out he may have photographed her. I found several knew sets of Lingerie that I do not think she would have bought in a bag at her house as well as the vibrator he bought her. I threw most of the lingerie out and I have the vibrator hidden in a drawer as I thought I might send it back to him at some point.

She had told me about him giving her the vibrator for a Xmas present but had not ever told me where it was and I had not asked. Remember she was worried that he would disclose things to me that would make me take Grace away from her and this being used would have scared the shit out of her.

What I learned from Autumn. She is what me started putting 2 and 2 together. When we talked I told her he has shown me lots of pictures of naked girls at his house and they looked like they did not know they were getting taken. She then told me about him constantly keeping game cameras on his dresser and shelf and that kept removing them as they made her uncomfortable. She said he kept putting them back and told her to leave them there so he could remember to take them to deer camp. He had lots of these cameras and real high end night time ones as I hunted with him. She said one day she went in to change into her swim suit and felt very uncomfortable. She said the cameras were back and when she went over they were on and taking pictures of her. She said she crushed them up. My guess is he was using these. She is also the one that told me to not trust Scott Nichols as he and Jess had a history together and made it sound like it related to sex pictures or weird sex things. She said Scott will defend Jess and has plenty of money to do it. I know this to be true and Scott is the one that confronted George Spentos last week and told him he need to hear Jess's story and see the text that supported it. That was there story of being in love and going to have a life together but I stopped her and made her kill herself. She started to tell me about Scott doing something to her and then stopped and changed subjects. Please do not contact Autumn at this point and when you do I do want it to be where she knows I shared this. She is scared of him and the guys out there as a whole I think.

I talked to Conrad this morning and asked him if I could talk to Amber about Jess and any potential pictures of her as I wanted to relay that info to you. He said he did not see a problem with it and would have her call me today. I will advise when I hear from her.

I am hesitant to talk to the Valerie lady about it as she is the one that was dating him also up until she discovered 2 days after Karen died that she was not the only one, and she called someone at HPD who told her yes Jess was involved with Karen and she had killed herself. She spent over an hour when we initially talked after the FB messaged me asking if we could talk. She told me about their first relations ship when she was married and details about the recent one until Karen died. Then after I messaged her back to get tested for Herpes she said she was in denial now and she was only friends with him. I am 99% sure he has talked to her as he also called Amber and I think referenced some of what I had talked about with her. I think Valerie is still under his guidance.

Let me know if there is anything relevant I might know or heard from Karen that you can think of that I might not have thought was pertinent.

Tell me if you want me to come by today or tomorrow. If I can help I want to.

Kevin.

Something else that may or may not be relevant.

Amber said that Jess had called her several times to give him different versions of his involvement since Karen died up until a week or so ago and when she did not initially answer a call from his regular cell # he started calling from other cell #'s and she would pick up since she is a nurse. He also had more than 1 phone when he was at Prestige and I would also like to give you his Prestige phone to download as well as his computer and email if you want them. He also had a personal lap top and I think a couple of times he was showing off his pictures they were on the laptop.

I also remember asking him once how he got the girls to let him take the pictures and he said something like If you don't ask permission they don't tell you no.

Let me know about the Prestige devices.

Below is email string that I sent out yesterday after I heard of the Russell's contacting Jess to console him and tell him thank you for all that he had done for Karen. Attached is text from Karen to Paige that you may have already seen or maybe not. It was the night before she killed herself and I sat in bed with her when she wrote it and Paige attached it when she replied to the Russells. FYI, Paige told me this weekend that Jess had started to make a run at her when he started here in Oct., but she was able to shut it down. I sure wish I had known what apparently everyone else in town knew. Most of this you probably already know but you may find something in here that had not been conveyed. I would start at the bottom and then the next email up is where Paige Miller her best friend chimed in, and then I sent it to my cousin Laci LeNorman and she offered her narrative.

I removed the attorneys names and email addresses from the emails so there is no issue with you reading and replaced their names in the narrative with XXXX.

Email me tomorrow when you have time. Thanks for listening and hopefully some of this information leads to getting this predator off of the street and stopped from doing this to other families.

 Karen obviously didn't come home to spill her guts about everything she had done, reconcile and consummate our marriage, confess our love for each other, buy new wedding rings, cancel our divorce with the attorney and move back in with me because she was in love with someone else and actually planning on being with them. She told me 2 days before she died the content of her text and admitted that she had been proactive in her responses to Jess BECAUSE at the time she was 100% convinced based on his lies to her that I had slept with numerous girls and moved one, and he was telling her that he was the only one that cared, loved or understood her. She confessed that at that point she no longer had intentions of reconciling with me and was fully living his lie. She said after the 2nd or 3rd time he called her to tell her that I had slept with someone else all she wanted to do was hurt me and move on. But said all of that was because she believed I had done just that to her. He also reminded her constantly that he was the only one that had proof and details of their relationship and as long as he kept that secret she would not lose Grace in the divorce. She said that hearing that from him made her concerned that if she did leave him or not do what he wanted that he would tell me and show me the texts where she reciprocated the feelings back to him. She said that is what first made her decide the week before she died that she had to tell me everything with the hope that if I did not take her back I would at least hear it from her and not take Grace away. She also said she felt that she would never be able to explain to anyone as when it came out she was sure he would lie and tell everyone it was her not him. That is EXACTLY what is happening now. I have no possible motive to get the truth out except to protect her honor and hope others don't suffer similar consequences. She told me $10\overline{0}\%$ what was in those text and why, and also her concerns. Not sure how anyone can make any sense of anything other than the truth and it makes no sense she would have done what she did with me if she wanted to be with him. Fucking crazy.

See the texts attached that Paige sent that Karen sent her the last night she was alive.

Do not send this anywhere please but you can use the information to address any lies you hear.

Frank,

My heart hurts so much for you and Karen. When I sit down to really digest, I think part of the burden she was carrying was the dealings with her *blood* family. It appears that nothing Karen stated to them was considered to be substantial.

Was this a thing for her to always be ignored by them?

Even now, with her pouring her heart on those pages, expressing her love and feelings, knowing she was about to leave this earth, her final words, thoughts, and wishes are not being believed. In fact, they are being brushed off, not even considered.

Regarding marriage:

The thing about marriage is, we are humans. It is not enough to just love, we must wake up each day and act with purpose to choose our spouse. While, you and Karen may have had issues, you both decided to choose one another. How amazing is that? You loved each other so much that nothing could make either of you choose to not be together. I hope you remember that, she chose you, and you chose her. There is not any action, word, statement, etc. that can take that away from you. That is yours to cherish forever.

1 Peter 4:8:

"Above all, love each other deeply, because love covers over a multitude of sins."

As for the Russell's here is what God has to say about that:

Philippians 1:27-30

Whatever happens, conduct vourselves in a manner worthy of the gospel of Christ. Then, whether I come and see you or only hear about you in my absence, I will know that you stand firm in the one Spirit, [e] striving together as one for the faith of the gospel 28 without being frightened in any way by those who oppose you. This is a sign to them that they will be destroyed, but that you will be saved—and that by God. 29 For it has been granted to you on behalf of Christ not only to believe in him, but also to suffer for him, 30 since you are going through the same struggle you saw I had, and now hear that I still have.

Deuteronomy 28:7

"The Lord shall cause your enemies who rise up against you to be defeated before you; they will come out against you one way and will flee before you seven ways.

Remember, God knows the truth, and in the end, that is all that really matters. Until then, for the chapters in between, we will remember how Karen lived, not how she died. We will understand that there are predators, and we will fight to stop this from happening to others. We will love more fiercely, forgive more, and make God and Family our top priorities. We are Team Karen Lee Robinson and her legacy of love and faith will continue.

Love Makes us Rich.

I love you Cousin.

Subject: Re: Karen

Karen was one of my very best friends. I treasured our friendship and there isn't a day that has gone by since her death that I haven't missed her. Karen and I talked almost everyday; whether it was over the phone, thru text, or a face to face conversation. Over the years we have shared with each other so much about our lives. We not only worked together; but we celebrated birthday parties with our kiddos, took walks together, had dinners, many sit down chats, etc. We enjoyed each others company so much and we both expressed how thankful we were to be neighbors as well!

I did notice the month prior to her death she seemed overly anxious and looked tired. I knew she often worked long hours and sometimes didn't get enough rest so I was concerned. I asked her many times if she was ok and she would smile and respond with "I'm okay, I'm trying to get there!" As always I would tell her that I was here for her if she needed me for anything and then we would always hug before departing.

I for one know that Frank and Karen's marriage wasn't perfect by any means; but what I do know is that they loved each other. I was shocked when I heard that Jess was claiming that Frank was hitting Karen. I have never seen evidence of this ever and Karen never mentioned anything like this to me. I am sickened that someone would make up lie after lie about Karen or Frank. Jess is the one everyone should be focusing their attention on; his malicious lies and false sense of compassion towards Karen and many other women show his true character. I'm not sure why Karen didn't talk to me about her involvement with Jess; but knowing her she was probably embarrassed and felt shame; therefore she chose to keep it to herself.

On Monday, March 29, 2021 @ 9:10 P.M. Karen sent me a long text. I have attached the text if anyone would like to read it. It was clear to me after reading her message that she was willing to reconcile her marriage and take steps to heal the relationship. At that time I didn't know about the situation with Jess and it wouldn't have matter to me if I did know. All I knew was that Karen was home with Frank and Grace and I was happy that whatever took place they both were willing to forgive each other and move forward.

I know how much she loved her children, William and Grace; she talked about them constantly. I would imagine that Karen is looking down from heaven and she is keeping a close watch over us all. The best thing we can all do now is to live our lives on purpose and cherish those we love because tomorrow isn't promised for anyone. Clearly this world is full of enough ugliness to last a lifetime and so it is really important in this day and time to be kind, sincere and compassionate towards others.

I would like to close by saying that I was blessed to have had a friend like Karen.

Russell's

I want to get this clear now. I heard that the Russell's have not only contacted Jess Dubcak to tell them they are sorry for his loss and appreciate all that he did. I also heard that he has read the letter and that could have only happened by him receiving it from one of you as I have not copied it or let anyone read it and I don't thing that Cantrell & Barcus have shared it with him.

- * I have copied XXXXX on here as he is the most familiar with what has happened since she killed herself. Please chime in.
- I have copied XXXX as he is not only my attorney but also my friend and I was discussing with him the week before Karen confessed to the affair that she was sounding like she wanted to get things worked out

and had told me that Monday that she wanted to talk to me later in the week about us, and that we should probably have the attorney that we were mutually using to postpone the April 26th court date to give us time to work things out. I was on the phone with XXXX that week talking about the postponement of the hearing sitting in Karen's parking lot with her standing there and I believe XXXX knows that. You can be sure if there were any legitimacy to Jess's claims we would not have been using a mutual attorney to file the divorce and it been uncontested. Please chime in.

I copied Paige in as she was probably Karens best friend and either talked to or saw her almost every day the past 7 years either at the office or the farm. She knows as much about mine and Karens relationship as anyone and definitely knows that I never abused her. She also knows how much I loved Karen and wanted her home and I believe that she personally knows where Karen was with me. Please chime in.

That is so off base I do not even know how it has happened. I have absolutely Zero reason to lie and I have been very upfront about mine and Karens differences and anything related to us.

Jess's first story to everyone right after Karen passed was that he had not been sleeping with her but had been sheltering her from me as I beat her and he was her protector. This is a complete lie and there is not one person anywhere that can say different.

Now I hear that the new story he is pushing is that they were in love and trying to get to the point of having a life together. She clearly states in her letter that she had moved home, we had confessed our love together, cancelled our divorce, reconciled our marriage and she had me buy her new wedding bands, Keep in mind this all happened after she had asked to come home on that Friday to stay the weekend with me, which we know to be true as she was at my house when she spilled her guts. And following that days discussion of what she had done and that we both loved each other more than any issues, she had moved back home that Saturday night. We went and got her clothes on Sunday morning. We all know this is true and the video of her moving is on her Ring and my Ring cameras. So how much sense does it make that she was in a relationship with Jess that she intended on continuing and if she was not continuing it you have to assume that everything she had said to him in text was based on lies and she had discovered that. I am not sure how you make anything else make sense.

Jess is the one and only one that did anything that led up to Karens death and he is a pathological liar. He is a sexual predator that prays on womens mind by finding something about them and their relationship that allows him to start a wedge and then be the savior. I have heard this common denominator from 4 different women that have had relationships with him, Surely they are not all lying. He is now lying to try and work his way back into life in Huntsville and lying to everyone that will listen and showing texts between him and Karen that she acknowledged the wrote when she was 100% convinced of his lies to her and as she told me after confessing to the affair she said these texts were going to read that way as she had gotten to the point of believing what he was telling her about me and that he was the only one that understood her and loved her. She also said in the letter for me to not read those texts as they would not let me remember her for who she really was. She also told me on that Monday when she broke down and wanted to go to Arizona and have a wreck that she felt that she could not even defend herself in the future when someone would ask her about the affair and she stated "I am guessing he will lie to them as he has to me, you and everyone else this whole time so he is seen as the savior and not as the one that caused this or led me up to it". To try and mitigate her concern with public opinion I told her that I would take the blame as I had apparently not shown her enough love to allow her mind to believe the crap he had told her. She told me that Jess was very secretive and told her to make sure she kept everything deleted from her phone and computer because if I found any of it I would use it in the divorce to take Grace. She said that in the week before that Saturday she came clean that she had just starting to feel like something was not right with him because the last time that he called with a morning report that I had slept with someone else, she said she hung up and realized that she had talked to me several times that night when I was in Humphreys and then we had texted and talked when I got home so she was starting to wonder if there stories were really true. She said she also questioned when he told her that he had talked to me in Mexico and I had 2 girls in the room as I was there with my cousin & his wife and our best couple friends, and I was facetiming with Grace every night. She said she asked him about this part and he said that I must have been getting them out of the room when everyone was awake or I was talking to her and Grace. How much sense does any of that make??? She also said that he was very secretive and always texting someone at nights when she was there and she started wondering towards the end if he wasn't seeing someone else. We now know this was the case as this lady called me after I made the Face Book post about Jess and told me she did not quit seeing him until she found out about Karen 2 days after she killed herself from a mutual friend as I did not know her.

Karen's issues with me and the reason for her discussing divorce for 2 years before we separated after Christmas is she did not agree to all of my business practices and had issues when I bought something without asking her, she also felt like I loved Prestige and making money more than I loved her, which I tried to explain to her that it was not that I loved Prestige. I even had this same discussion with George when she moved out and she addressed all of her reasons for the divorce filing in the letter.

Karen suggested our separation in early Dec. to begin after we spent Christmas together and her terms to me, which I accepted were that we would both not see anyone else unless we went thru with the divorce and it was finalized. She said that this would allow us interference free attention to our issues and if we both missed each other and only got Grace 1/2 the time this would offer great incentive for us to get our marriage

Karen killed herself because up until this last event with Jess she lived her life honestly and upfront, and she told me this and all of you know that these were her beliefs. What she had done involved not only having an affair but then finding out that her entire reason for doing it which was to make me hurt like she hurt, was a complete lie. When she confessed everything she made a point to say she had not had intercourse with him and repeated that to me several times convincingly, but based on what we know to be a fact, she contracted Herpes and that was going to at some point be an issue that came out between us now that we had reconciled our marriage and she had moved home and we were back having daily sex. Based on the amount of Herpes in the blood she contracted it between mid Jan and mid Feb and was diagnosed by her gynecologist the first week of March and prescribed the medication. Everything I have stated is proven or known by others than me and want everyone clear as a fucking bell on what happened to cause Karen to take her own life. Please feel free to discuss among yourselves if needed and look at the facts so the continuation of martyrizing the one person that is solely responsible for her death as that this current situation of supporting and defending the guilty mother fucker is the only embarrassing thing that has happened to Karen and she 100% predicted he would do exactly that, but I am sure she had NO idea her family would be on board with it. She states clearly in her letter what her feelings for me were and we have no reason to doubt them as they are contained in her last wishes and statement. Why do you think she said in her letter for me to not seek revenge??? What else would have to seek revenge on Jess for other than the fact that she had told me everything he had done to her?? We need to be unified on this.

Frank III

Kevin:

According to everyone who has a background in criminal law, genuine hate crimes THREATENING to kill another person are CRIMINAL CRIMES and NOT "civil bullshit".

I, and other persons familiar with laws against serious death threat, fully documented on Face Book, against an innocent person are SERIOUS CRIMES THAT SHOULD RESULT IN IMMEDIATE ARREST and especially when other persons have also been threatened by the same person. Having to go into hiding on fear of death is further proof.

As a senior citizen he defrauded us out of our last million in retirement savings by promising a return of \$200K per year so that we could continue operating our FREE museums and wildlife sanctuaries. He broke us paying one of his friends around \$250K, buying a Jeep Rubican, trips to ski, Cancun, in ground swimming pool and other waste of our retirement funds. Scamming a senior citizen is also a crime but may actually be a Civil matter.

Therefore, we are all living in fear from a dangerous person. Frank threatened to kill me for the first time around 14 years ago, and blamed me for the death of daughter Karen because he said that I encouraged her to make good grades back in Jr. High and High School. BULLSHIT!! She was a genius and graduated from H. S. in 3 years and SMU in 3 years. The ONLY thing I ever did for all four kids was to encourage high grades with awards of up to \$100 for straight A's.

None of the other three have ever killed themselves because I encouraged good grades.

We are dealing with an extremely dangerous person who has terrorized innocent citizens but appears to be PROTECTED BY THE OLIGARCHY that has wanted me dead for decades.

I understand that your job and eventual retirement can be shit-canned by the organized crime families that have ruled Walker County, especially since December 31, 1879. The Chief of Police, for example, hates my guts and allowed a drug gang to invade our \$700K home at 1700 Ave S. and eventually blow it up causing over \$300K in uninsured damages because he HATES ME AND OUR CHURCH.

He psychotically told me that Jesus wants innocent people to be executed so that they can "BE WITH JESUS SOONER". Under the Constitution he can believe any bullshit that he may believe but he uses his religious insanity to punish me and protect Frank who has a huge Christian Cross around his neck which in the opinion of the Chief of Police means that any crime that he commits are "pre-forgiven in advance."

I was called today by a person who was involved in being at a high level in law enforcement and a prison executive today and he agreed that DEATH THREATS, ESPECIALLY DOCUMENTED, as are Frank's ARE SERIOUS CRIMES and the perp should IMMEDIATELY BE ARRESTED AND PUT IN JAIL WITHOUT A BOND.

So, just who is protecting the dangerous criminal from being arrested? And just who is telling you to lie about serious

CRIMINAL death threats as being CIVIL crimes rather than being CRIMINAL?

Kevin:

The EMS REPORT raised some serious questions:

- 1. EMS had no idea if the gun shot wound was "self-inflicted" or not, so someone would have put that myth in their
- 2. Karen had obviously been dead for a significant amount of time as she was cold and the blood in the car had dried or
- 3. EMS found her on the ground outside of the car and I know that HPD didn't toss her corpse out into the dirt, so it had to have been Frank. There was zero reason for Frank to throw her obviously dead body out of the car and into the dirt.

According to my interpretation of the law, tampering with EVIDENCE as well as TAMPERING WITH A CORPSE are serious crimes, the obvious purpose of which would be to muddy the water.

Since she was dead when Frank and Grace "discovered" her in the car and her body was cold, we believe that while Grace was in school, Frank went to Karen's "safe house" to kill her before the divorce could be finalized and then after Grace came home from school he took her to Karen's house to "discover" the body. We have heard speculation from more than one person that Frank paid for a "hit", so that he would be covered but I think he did it by himself.

AUTOPSY REPORT

The autopsy report was totally erroneous and the Dr. has refused to respond to my demands for clarification and to change the cause of death from "suicide" to "undetermined".

I will post my "complaint" to the Dr. that signed off on the autopsy which may explain why we were not able to get a copy of the report for 8 months by being told that it wasn't ready because of inconsistencies.

Karen had 14 BLUNT FORCE TRAUMA WOUNDS ON HER BODY, INCLUDING ABRASIONS ON HER RIGHT THUMB. which could have been from Frank breaking out the car window and forcing the gun into her hand, and forcing it to the left so that the bullet's trajectory to have been such that she could not have pulled the trigger unless physically forced.

The question is when did she receive the wounds that were obviously not self-inflicted? She was scared that Frank was going to kill her and he allegedly tortured her emotionally and physically until he called her best friend and said "I BROKE

Why did she only have one shoe on? Perhaps she was attempting to escape when she saw Frank drive up to her house.

The death certificate seems to claim that the autopsy was in the hands of Fisher on the 7th of April 2021. And the time of death is listed as 6:26 P.M., while EMS was "on the scene" at 6:24 and with Karen's cold body with no blood coming out of her wounds at 6:25. Why didn't we get a copy from Fisher for many months? I believe that Frank and Fisher and

STRANGE EVENTS AT THE DEATH SCENE:

1. Frank had called me in his usual gruff voice, with no sign of emotion around 6:30 (I wish I had the exact time) and said: "Hey DIL, get your ass over to your daughter's house. She shot herself in the heart. She's dead." -- and hung up

- 2. Kristi Zeltner was with me and her memory is better than mine as I was in shock, so you may wish to speak with her about things that just didn't seem right.
- a. Frank seemed to be both drunk and on drugs and was scary belligerent toward me. Kristi asked HPD to keep him away from me and drug test him as well as test him for gunpowder residue which we do not believe had been done.
- b. Brian Cantrell seemed to be somewhat in charge of the "investigation" which seemed very strange indeed and demanded that we must remain Frank's friend or words to that effect.
- c. Frank was given exclusive access to Karen's house and we were ordered to stay out for a week or more so that Frank could rifle through her files, records, computer, cell phone etc.and destroy any evidence that might convict him.
- d. There were discarded examination gloves on the ground on the side of the "death car". When I asked about them I was told by Cantrell (I believe) that EMS had discarded them. My initial thought was to preserve the gloves but
- e. Frank also took possession of the "death car" and I doubt a thorough forensic investigation took place before the car was turned over to Frank who put a "for sale" sign on it in front of Prestige and it was apparently sold. I was hoping to check on it and take photos but it went missing before I had a chance.
- f. Frank seemed to be delebrating with his buddies and about three times let out a totally fake scream and then went back to smoking cigarettes with his buddies.
- 8. It all seemed surreal and out of a horror movie.

MOTIVES FOR MURDER--KEEPING IN MIND THAT STAGED SUICIDES ARE ALMOST ALWAYS HOMICIDES COMMITTED BY AN ESTRANGED HUSBAND, BOYFRIEND OR OTHER CLOSE MALE COMPANION.

- 1. For some strange reason Judge Sorensen gave Frank 100% of Karen's personal and "community property", cutting her
- 2. Frank had also done some sketchy things like swearing that he was single so that he could gain 100% control of their home. I believe that to have been a crime as well. Those documents are in the Courthouse in the "probate files" and should be made available to you.
- 3. Chances are she had a will, as she was a meticulous genius and Frank had sole access to all of her files and records etc. and would have made any will disappear.
- 4. Karen was so upset that Frank had defrauded us out of our liquid savings plus got us into debt to the tune of an additional \$300,000 and had tricked me into assuming a large part of the trailer factory debt that I believe that her intent was to try to repay us out of the sale of her personal and "community property" part of which was quickly sold for \$1.7 MILLION DOLLARS!!! Because Frank had scammed Karen's mother out of \$50,000 and didn't pay it back with interest when promised, Karen sold her car and gave her mother \$10,000. Sue eventually got the remaining \$40,000 back after significant effort. We believe that he used our money beyond buying a Jeep Rubicon, installing an "in-ground" swimming pool and trips we believe to ski and to Mexican resorts, in a PONZI scheme to pay off other "investors" that wanted their money back. The defrauding us out of what will no doubt be over a million dollars also meets the definition of ELDER ABUSE. Frank had promised a minimum return on our "investment" in the trailer factory of at least \$250,000 per year and my research showed that trailer factories make gross returns of no less than 10% and up to 30%. It would take effort to run that thriving business into the ground.
- 5. Frank also collected a reported \$600,000 in life insurance proceeds and we have never discovered when those policies were established, by who and when.
- 6. Since most policies will not pay off in the event of "suicide" for two years, it is my opinion that he had been planning her "murder" for at least two years. (Please find out from the two insurance companies the facts in the matter.) I suspect that should Frank ever be convicted of killing Karen, the insurance companies might demand their money back.
- 7. Since you did not ask for the packet of documented proof that Frank conspired with two other men (making the theft organized crime in my opinion) to steal my \$100,000 that was supposed to have been returned to me at the closing of the \$1.7 million sale of the property. I gave it to Aron Kulhavy and asked him to make sure that you got it. He responded that he gave the packet to HPD. The documents PROVE the theft of \$100,000 from me which is both THEFT and ELDER ABUSE that should immediately provide Frank and hopefully his accomplices with 2nd Degree Felonies and get Frank off the streets.
- 8. As Frank checks ALL of the boxes pointing to him being a NARCISSISTIC PSYCHOPATH, he is devoid of compassion

and I consider him armed and dangerous since as first he blamed me for Karen's death because, I forced her to make good grades in school, when in fact she was a genius and automatically made good grades for which I rewarded her.

If nothing else the documentation proving the theft of the \$100,00 should be grounds for arrest.

ghr

P.S. We want all records, reports, photos, videos etc. taken at the crime scene so do we ask HPD under a PIR or through Aron's office?

P.P.S. There has been some evidence that HPD has let Frank know what we have been up to and yesterday we discovered that Frank had somehow installed an AP on my cell phone that allowed him to track me and we got that removed yesterday afternoon when we figured out how to.

THEFT OF \$100,000 FROM GEORGE H. RUSSELL AGE 76

My name is George Haw Russell, born Other than allowing myself to be duped into investing what will be over \$1 MILLION DOLLARS in a trailer factory with the promise by son-in-law Frank Robinson that my share of the profits would be at least \$200,000 per year plus rental income from renting the factory building to the trailer factory, I am of sound mind.

The income was needed in order for our foundation, THE ETHICIAN FOUNDATION to be able to maintain our museums, wildlife sanctuaries and botanical preserves, but also for our church THE UNIVERSAL ETHICIAN CHURCH to maintain its museums, four Green Cemeteries and church owned botanical preserves and wildlife sanctuaries.

Over a period of years, Frank Robinson gained my confidence and so foolishly my crippled senior citizen wife, Suzanne Bennett Russell, born and I fell for his con game and continuous lies and invested basically our last liquid capital, then were conned into going into debt to the tune of \$300,000 and finally we made two 30 day loans with interest totaling \$150,000.

On my 74th birthday, Frank Robinson called me up and said, "Hey DIL (meaning daddy-in-law) the trailer factory just filed for bankruptcy and your money is gone.

We had no idea that in addition to losing our money in what I believe was basically a PONZI SCHEME, we lost our daughter, Karen Lee Russell, to what we believe was a murder that had been planned for at least two years by Frank Robinson, but that's another story that does not fit Texas Penal Code 32.55: FINANCIAL ABUSE OF ELDER INDIVIDUAL.

Texas Penal Code 32.55 does fit both the FBI definition and the State of Texas definition as ELDER FRAUD.

On 13 February 2019, believing that the money would finish paying off all debts of the trailer factory, put it in the black and start churning out a profit I wrote a check for \$100,000 to Frank Robinson, as a "personal loan" at 5% interest to be paid back in 30 days, which would have been mid-March 2019.

My wife had written a check for \$50,000 from her inheritance remainder from her mother that was supposed to have put the trailer factory in the black. That check was written on 17 January 2019. The loan was for 30 days at 12% interest. Karen sold her car in order to pay her mother back \$10,000 of the original \$50,000 and Sue did finally get the \$40,000 balance back but without interest, sometime after 27 October 2021.

On 9 March 2021 at 9:27 a.m. I wrote to Frank, expressing my frustration in having lost a significant amount of money due to his dishonesty and false promises.

On 9 March 2021 at 9:35 a.m. Frank writes, 'Fuck you" and promises to pay back at least the \$140,000 30 day loans

On 9 March 2021 at 9:54 a.m., Frank threatens me, obviously knowing that eventually Karen will be killed and he would obtain control of her estate.

On 9 March 2021 at 10:39 a.m. I wrote to Frank that I did NOT threaten him.

On 9 March 2021 at 10:46 a.m. Frank again threatens me but writes that he is going to sell a substantial amount of community property and that he will pay Sue and me back the \$140,000. "IT WILL BE THE FIRST CHECK I WRITE I ASSURE YOU."

On 20 March 2021 Karen came to church to celebrate her divorce from Frank, who had purposefully delayed the actual decree by not filing when he said he had, to give him a window of opportunity to obtain her entire estate (estimated at more than \$1 MILLION DOLLARS) along with approximately \$600,000 in life insurance proceeds.

On 30 March 2021 Karen was killed, thus giving Frank her entire estate, leaving her son by a previous marriage out of his 25% of her share of community property that then sold on 26 October 2021, for some \$1.7 million.

On 14 September 2021 Frank signed the INVENTORY, APPRAISEMENT AND LIST OF CLAIMS & DEBT OF THE ESTATE OF KAREN ROBINSON as follows:

"Debt/Personal Loan Guarantee Default guaranteed the repayment of 2 loans made to Texas Steel Manufacturing, LLC by George and Sue Russell. The company filed for bankruptcy, agreement was to pay this amount back upon the sale of property. The title company will be issuing a check for \$100,000. To George Russell and a check for \$40,000 to Sue Russell. \$140,000 in total."

On 26 October 2021 Polk County Abstract, Inc. wrote a check to George H. Russell in the amount of \$100,000, as per the estate inventory document of 14 September 2021

On 27 October 2021 George Russell was instructed to go to Polk County Title to pick up his check for \$100,000 and Sue's check for \$40,000.

Upon arrival, an attempt was made to trick George Russell into signing a document that he was told was a receipt that he had received the two checks.

When he told the person thrusting the paper in front of him that he would not sign the document without reading the pages beneath the signature page, the Title Company reluctantly provided George Russell with a copy of the document, which proved to be a FRAUDULENT ATTEMPT to:

- A. Make it appear that the \$100,000 had never been George Russell's, but instead was \$100,000 belonging to Frank Robinson.
- B. The three page document states that George Russell's \$100,000 is being paid to him by Frank Robinson in order to bribe George Russell and virtually anyone associated with him of absolving Frank Robinson from et al from any liability associated with the loss of the monies that George Russell and Sue Russell had invested in a trailer factory based on obvious FRAUD that appeared to perhaps be some kind of Ponzi scheme.
- C. I was then told that the two checks would be sent to Bryan Cantrell, where I assumed that they would be given to me.

D. I went to the offices of Hans Barcus and Bryan Cantrell to retrieve our checks but instead of giving me our checks Hans wanted to know if I wanted to modify the language of the FRAUDULENT RELEASE OF ANY LIABILITY of Frank et al. I said "absolutely not" because Hans Barcus had absolutely no legal right to hold our \$140,000 hostage to Frank Robinson and Jacob Paschal, the attorney that had concocted the document that the title company had attempted to trick me into signing. Hans Barcus told me that the title company had "contracted" with him to get me to sign the document or a revised version, which I refused to do, as the money was ours and NOT Frank Robinson's.

E. I told Hans Barcus to send the checks back to Polk County Title as it was Polk County Title that was to have given me the two checks without any claim that my \$100,000 was actually Frank's and not mine.

On 19 November 2021, I sent an e-mail to Ron Boyce, President of Polk County Title warning him that his firm was being sucked into a cesspool of FRAUD, and to send the two checks to me "IMMEDIATELY VIA OVERNIGHT MAIL!!!".

On 1 December 2021, I send an e-mail to Hans Barcus's legal assistant warning her about the theft and fraud and hoping that Hans didn't allow himself to be caught up in Frank's theft of our money and fraudulent attempt to make it appear that it was his money and that he was "bribing" me with my own money to absolve him of any guilt from any of the crimes perpetrated by Frank Robinson.

On 5 December 2021, at 5:39 p.m., Andrew Boyce, title company General Manager wrote the following paragraph:

"Mr. Russell, we did as were INSTRUCTED BY FRANK (emphasis with caps mine), in regards to this deal. We had a check cut for you, you came by to pick it up, there was some agreement between you and Mr. Robinson that we were not a part of. He needed a document signed off on before funds could be released when you would not sign we sent the check to Mr. Robinson's attorney's office. This is not a title company issue but an issue between you and Mr. Robinson. Please direct any questions or issues in regards to the check to his attorney's office."

MYSTERY: It was my understanding that it was Jacob Paschal who produced the document attempting to defraud me out of my \$100,000 and not Hans Barcus or Bryan Cantrell. This needs to be cleared up, but Barcus and Cantrell did become a part of the situation by allowing themselves to be contracted by the title company to get my signature on the fraudulent document in a revised version if I wished the language to be revised, which of course I refused to have anything to do with.

On 5 December 2021 at 9:24 p.m., I wrote to Andrew Boyce, title company General Manager, telling him that the \$100,000 was mine and NOT Frank Robinson's . I wrote in all caps: "THERE WAS ZERO AGREEMENT BETWEEN ME AND FRANK ROBINSON TO WITHHOLD OUR \$100K."

On 5 December 2021, at 10:37 p.m. Andrew Boyce, title company General Manager, wrote that "...the other check (mine for \$100,000) was the (sic) DESTROYED AND REWRITTEN TO FRANK" (caps mine).

On 6 December 2021, I advised Andrew Boyce, that in my opinion, tearing up my check for \$100,000 and giving my money to Frank was a serious crime.

On 17 January 2022, Frank Robinson wrote that my allegations to the Texas Department of Insurance were false, when in fact the TDI is the agency that governs title companies. The TDI did finally find a crack to weasel out of by saying that since there was no title insurance involved there was nothing they could do.

However, I disagree as the title company's ESCROW ACCOUNT was involved and my reading of the rules in regard to title companies are that all checks written out of an ESCROW ACCOUNT are to go to the rightful owner (and not torn up and rewritten to a person having a ZERO ownership interest.)

On 18 January 2022, I received a THREATENING LETTER from Seth A. Nichamoff demanding that I retract what appears to be my entire complaint.

He then THREATENS ME WITH CLAIMS FOR SLANDER, DEFAMATION, MALICIOUS PROSECUTION AND ABUSE OF PROCESS.

I have just included documentation especially associated with the theft of my \$100,000 to make an investigation into this theft easier.

However, I have paper trails from Frank that prove that I was being deceived into making a large investment into the trailer factory itself based on what I consider to be FRAUDULENT INDUCEMENT!!!

If you need a copy of that paper trail I will be happy to provide it as the total of my wife and me being defrauded will add up to at least ONE MILLION DOLLARS in my estimation.

Elder Fraud

Elder Abust

Each year, millions of elderly Americans fall victim to some type of financial fraud or confidence scheme, including romance, lottery, and sweepstakes scams, to name a few. Criminals will gain their targets' trust and may communicate with them directly via computer, phone, and the mail; or indirectly through the TV and radio. Once successful, scammers are likely to keep a scheme going because of the prospect of significant financial gain.

Seniors are often targeted because they tend to be trusting and polite. They also usually have financial savings, own a home, and have good credit—all of which make

Additionally, seniors may be less inclined to report fraud because they don't know how, or they may be too ashamed at having been scammed. They might also be concerned that their relatives will lose confidence in their abilities to manage their own financial affairs. And when an elderly victim does report a crime, they may be unable

With the elderly population growing and seniors racking up more than \$3 billion in losses annually, elder fraud is likely to be a growing problem.

Former FBI Director William Webster and his wife were the targets of a Jamaican lottery scam in 2014. They assisted in the FBI's investigation, which led to the arrest and conviction of Keniel Thomas, who was sentenced in February 2019 to nearly six years in prison.

Report It

If you believe you or someone you know may have been a victim of elder fraud, contact your local FBI field office or submit a tip online. You can also file a complaint

Common Elder Fraud Schemes

- a Government impersonation scam: Criminals pose as government employees and threaten to arrest or prosecute victims unless they agree to provide funds or other
- Sweepstakes/charity/lottery scam: Criminals claim to work for legitimate charitable organizations to gain victims' trust. Or they claim their targets have won a foreign
- a Home repair scam: Criminals appear in person and charge homeowners in advance for home improvement services that they never provide.
- TV/radio scam: Criminals target potential victims using illegitimate advertisements about legitimate services, such as reverse mortgages or credit repair.
- Family/caregiver scam: Relatives or acquaintances of the elderly victims take advantage of them or otherwise get their money.

Protect Yourself

- Recognize scam attempts and end all communication with the perpetrator.
- Search online for the contact information (name, email, phone number, addresses) and the proposed offer. Other people have likely posted information online about
- Resist the pressure to act quickly. Scammers create a sense of urgency to produce fear and lure victims into immediate action. Call the police immediately if you feel
- Be cautious of unsolicited phone calls, mailings, and door-to-door services offers.
- a Never give or send any personally identifiable information, money, jewelry, gift cards, checks, or wire information to unverified people or businesses.
- Make sure all computer anti-virus and security software and malware protections are up to date. Use reputable anti-virus software and firewalls.
- " Disconnect from the internet and shut down your device if you see a pop-up message or locked screen. Pop-ups are regularly used by perpetrators to spread malicious software. Enable pop-up blockers to avoid accidentally clicking on a pop-up.
- Be careful what you download. Never open an email attachment from someone you don't know, and be wary of email attachments forwarded to you.
- Take precautions to protect your identity if a criminal gains access to your device or account. Immediately contact your financial institutions to place protections on your accounts, and monitor your accounts and personal information for suspicious activity.

How to Report

If you believe you or someone you know may have been a victim of elder fraud, contact your local FBI field office or submit a tip online. You can also file a complaint with the FBI's Internet Crime Complaint Center.

When reporting a scam--regardless of dollar amount--include as many of the following details as possible:

- Names of the scammer and/or company

Thost \$100\$ (13)

Fuck you. You are the worst I have ever met at continuously trying to blame everyone else for your problems. I will have paid over \$1.2 m by the end of this year to cover loses for that trailer company that I kept going to try and recover not only all of our investments but to keep you a tenant and get your back rent collected. You owned more of the trailer company than I did and had the greatest chance for return had it gone well. That is business as you are aware. I am done with you as you appear to be as described by the vast majority of those that know you. I will pay Sue and you back the balances owed on the \$140k and call it done. Frank III

What about the interest I have been paying the bank on the \$300K in debt that I went into being led to believe that it would bring the trailer factory right-side up and then generate \$200K per year to maintain our museums and wildlife sanctuaries. We have not had positive income for 15 or so years and are burning through the money from the 4 acre sale. Out of \$1.5 million there is less than \$700K left in our Foundation account and the foundation still owes the corrupt banksters \$250K.

I was led down a primrose path against the advice of Karen and the advice of Kristi. A PBS documentary said that once men's brains age to 70 they get careless and make stupid mistakes. I am the poster boy.

The key that I should have paid attention to was when you hired Sam McCann who had already attempted to cheat me out of \$100K when I financed his used car business at no interest many years ago when \$100K was like \$250K today. Robert McCann finally paid me, no doubt out of his own money since he induced me to "floorplan" his son's business.

\$10K a month to Sam who refused to go inside the factory to see all of the theft, waste and then selling trailers for thousands less than the cost of manufacturing them did both of us in. He even covered up the window that allowed managers to see what was going on inside the factory.

Turns out that the employee that you told me was so wonderful was one of the chief crooks and he not only refused to do what I told him to do when I hired him upon your misguided advice but physically threatened Kristi and my staff so I had to fire him. It also turns out that he abused his girlfriend.

However, you are still young and are making a profit and able to go on vacations and still have money to spend. I live in mortal fear each and every night of not being able to outlive what little assets we have left.

If you were not FAMILY I would have sued you personally and filed criminal charges on you under various laws that would have protected a senior citizens from fraudulent inducement that destroyed my master plan to leave a legacy to future generations.

At least you can recover financially but my wife and I cannot.

Please do NOT forget that you told me you were going to make \$40K a month and start donating to our foundation, and that eventually you would make us whole and pay back at least the principal of my INSANE INVESTMENT that I stupidly did not vet, that if I had would have made sure that I would NOT have thrown the last of our life savings into a BLACK HOLE.

The BIGGEST MISTAKE OF MY LIFE was listening to your BULLSHIT!!!

I still love you as the father of our beautiful Grace, aka Preemie but start paying us back out of what seems like your current substantial personal income rather than attempting to extract even more money out of our hides.

Our ONLY source of income is from rents and the cash flow is negative since people are refusing to pay and are destroying our properties our of boredom and drunkenness in some cases doing over \$25,000 in damages plus around \$50K in damages from the freeze.

Please stop stressing me out but instead please make good on your promise to start paying us back via tax deductible donations to our foundation.

I did previously say to pay what I do NOT consider to be my part as I had no idea that by being totally stupid I had assumed 1/3 of the debt without my knowledge or belief, but our negative cash flow makes that impossible and unethical for you to ask.

I take your statements below as threats. I am not threatening you, just making it clear it is not advisable to threaten me as the consequences will not be pleasant.

Neither you nor Sue loaned me the \$150k but loaned it to TSM so we could get thru pushing out as many trailers at the end as possible so we could get the bank balance that we were all on the hook for down as much as possible. I agreed to guarantee this loan to TSM and as stated I will repay the balance left as soon as I close on the 1st of my property sales, which the closing is currently scheduled for 9/1. It will be the first check I write I assure you. The family part is up to yall. I can take it or leave it, but either way I will facilitate both of you seeing your granddaughter as much as possible.

Have a good day and I will pay off Hans this week.

What about the interest I have been paying the bank on the \$300K in debt that I went into being led to believe that it would bring the trailer factory right-side up and then generate \$200K per year to maintain our museums and wildlife sanctuaries. We have not had positive income for 15 or so years and are burning through the money from the 4 acre sale. Out of \$1.5 million there is less than \$700K left in our Foundation account and the foundation still owes the corrupt banksters \$250K.

I was led down a primrose path against the advice of Karen and the advice of Kristi. A PBS documentary said that once men's brains age to 70 they get careless and make stupid mistakes. I am the poster boy.

The key that I should have paid attention to was when you hired Sam McCann who had already attempted to cheat me out of \$100K when I financed his used car business at no interest many years ago when \$100K was like \$250K today. Robert McCann finally paid me, no doubt out of his own money since he induced me to "floorplan" his son's business.

\$10K a month to Sam who refused to go inside the factory to see all of the theft, waste and

then selling trailers for thousands less than the cost of manufacturing them did both of us in. He even covered up the window that allowed managers to see what was going on inside the factory.

Turns out that the employee that you told me was so wonderful was one of the chief crooks and he not only refused to do what I told him to do when I hired him upon your misguided advice but physically threatened Kristi and my staff so I had to fire him. It also turns out that he abused his girlfriend.

However, you are still young and are making a profit and able to go on vacations and still have money to spend. I live in mortal fear each and every night of not being able to outlive what little assets we have left.

If you were not FAMILY I would have sued you personally and filed criminal charges on you under various laws that would have protected a senior citizens from fraudulent inducement that destroyed my master plan to leave a legacy to future generations.

At least you can recover financially but my wife and I cannot.

Please do NOT forget that you told me you were going to make \$40K a month and start donating to our foundation, and that eventually you would make us whole and pay back at least the principal of my INSANE INVESTMENT that I stupidly did not vet, that if I had would have made sure that I would NOT have thrown the last of our life savings into a BLACK HOLE.

The BIGGEST MISTAKE OF MY LIFE was listening to your BULLSHIT!!!

I still love you as the father of our beautiful Grace, aka Preemie but start paying us back out of what seems like your current substantial personal income rather than attempting to extract even more money out of our hides.

Our ONLY source of income is from rents and the cash flow is negative since people are refusing to pay and are destroying our properties our of boredom and drunkenness in some cases doing over \$25,000 in damages plus around \$50K in damages from the freeze.

Please stop stressing me out but instead please make good on your promise to start paying us back via tax deductible donations to our foundation.

I did previously say to pay what I do NOT consider to be my part as I had no idea that by being totally stupid I had assumed 1/3 of the debt without my knowledge or belief, but our negative cash flow makes that impossible and unethical for you to ask.

Ron:

Sorry, but your firm has been sucked into a cesspool of murder and fraud. For some reason, our daughter's killer chose to close on a land sale in Walker County in your firm for various reasons, some of which are still not known, but I believe to keep the transaction secret from creidtors.

I was told to go to Livingston and collect the last \$140,000 plus interest that we had been scammed out of from the proceeds of the closing.

I drove to your offices and a woman thrust the last page of a document in front of me and told me to sign for the checks. I said that, since we had been defrauded out of at least a million dollars plus gone into debt to the tune of \$300K due to fraudulent inducement, I said I would not sign anything that I had not read.

I read it and it was a SCAM to absolve the scammer and killer of our daughter of any and all liability for the death of our daughter plus our loss of at least a million dollars.

Obviously I refused to sign and asked for a copy of the ILLEGAL AND BOGUS RELEASE. It took a long, long time before I was given a copy.

Your office then told me that the checks would be sent to Bryan Cantrell who is one of our attorneys which sounded really fishy to me, instead of to Frank Robinson's attorney that produced the insane document. That was definitely a conflict of interest in that I had sent Frank Robinson to my attorneys when he needed legal help and before I was aware of his planned crimes against us, thus creating a "conflict of interest".

So when the checks arrived at the offices of Hans Barcus and Bryan Cantrell I went to the offices to see what kind of fraudulent attempt to get me to sign the document which proved that the \$140K was a "bribe" and NOT a repayment of debt, that would absolve Frank Robinson of any and all crimes against us past, present and future, including my wife, our remaining living children, our employees, witnesses and anyone else with evidence of the murder and the fraudulent theft of our money based on lies.

So I told Hans Barcus to send the checks back to your firm as your firm had become part and party to the fraudulent attempt to not only steal our money but place you in a serious situation.

Now we really need the \$140,000 plus interest in order to pay property taxes.

So please send us the two checks, due to us with interest, IMMEDIATELY VIA OVERNIGHT MAIL!!!, and without the bogus and corrupt attempt to not only further defraud us but absolve Frank Robinson with his blatant and pre-meditated role in the death of our daughter.

I am very sorry that your company allowed itself to be sucked up into this cesspool but now that you have been swimming in the sewer we expect you to get out of the cesspool, wash yourself off and send us the \$140,000 plus interest before the feces takes your company down deeper into the sewer that you jumped into with any due diligence.

Sue Ann and I will deal with tomorrow. Have to go evict someone that refused to sign up for FEMA help and owes around \$20K.

neip and owes around \$20k.

Please remind me around 9 am on Monday.

ghr

P.S. I feel sorry for Hans. Frank has been trying to entangle him into Frank's fraudulent attempt to steal \$100K in community property plus interest.

I understand the conflict of interest but, correct me if I am wrong please.

I was tragically principle stock holder in the trailer factory with 30% compared to Frank's 25%.

Apparently we got sued by the guy in Madisonville over the name of our factory.

I sent Frank to Hans to represent our factory - not to represent Frank personally.

Therefore in my mind Frank was never a client.

However, Hans knows 1 million times about the law in regard to conflicts of interest BUT

It is both FRAUD AND THEFT for Frank to withhold the \$100K and hold it hostage while pretending that the \$100K is HIS money, and not ours and that it is payment for ALL OF US TO RELEASE FROM anything he has ever done illegally past, present and future.

He has repeatedly promised to return our \$140K plus interest and never pretended that the money was his until recently.

Then he was going to write off the \$100K on his income tax as a "business expense"

and sent us a 1099 so we would have to pay income tax a second time on our own money.

I really don't want Hans to get caught up with Frank's latest SCAM so don't know what to do at this point to recover at least our \$1100K in COMMUNITY PROPERTY.

Any ideas?

We don't have the check; you'll need to contact Frank as the funds have been returned to him. Per our instruction. We do not know any of the back story or the things that had been promised or otherwise stated between you and Frank. We did present you with a copy of the document to take for review and we did as we were instructed to send both checks and the document to the attorney's, office until this was resolved. We received both checks back a few weeks ago with the instruction that Sue could pick hers up and that the other check was the destroyed and rewritten to Frank.

Subject: Re: Check from Frank

I was told by Attorney Hans Barcus that the two checks were sent to him by your office, when I drove to Livingston to pick them up as agreed by Frank Robinson, and he told me that when I refused to sign the fraudulent attempt to steal our \$100K, he sent them back to your firm. Regardless of the legality of what your firm did or did not do, I was told that the checks were in your possession.

Frank Robinson, had no legal right to steal our \$100K and then use it to defraud us of the \$100K unless we signed an illegal and fraudulent document absolving him of any role in the murder of our daughter or the loss of around of a million dollars invested based on FRAUDULENT INDUCEMENT.

THERE WAS ZERO AGREEMENT BETWEEN ME AND FRANK ROBINSON TO WITHHOLD OUR \$100K. He told me multiple times that the checks would be ready for me to pick up and there were NO RESTRICTIONS as he had zero legal right to restrict you from giving us the check as promised, and you had ZERO legal right to not have presented the check to me when I came to claim the return of our \$100K. He then pretended that OUR money was HIS and that he was using our money to bribe/coerce us to sign the insane document in order to gain possession of our OWN MONEY. Then he was going to send us a 1099 so that we would have to pay income taxes on OUR OWN MONEY and then he would write off the \$100K as a business expense, thus defrauding the IRS.

When you played along with that fraud without question and thrust the document in front of me for my signature without being able to read it, unless I insisted and then when I insisted on a copy that took a very long time, it appears to me that you became an agent of theft and fraud and a potential IRS investigation.

So you may believe that you are not involved but think again.

I have been led to believe by Attorney Hans Barcus that he returned our \$100K and my wife's \$40,000

checks to you.

So please find out where our MISSING CHECK IS AND IF YOU HAVE IT IN YOUR POSSESSION AS I HAVE BEEN TOLD BY THE ATTORNEY THEN PLEASE DELIVER IT TO ME BY COURIER NLT tomorrow by 5 pm.. I will then sign a document that I FINALLY RECEIVED the \$100K check WITHOUT PROMISED INTEREST, absolving your firm of liability and also not holding your firm responsible in any libability for the failure to provide the promised interest payment

For some mysterious reason my wife's \$40K check showed up and she deposited it without any bogus or fraudulent restrictions.

Thanks.

You may wish to believe that you are not involved but by believing Frank's attempted fraud, and you believing his FRAUDULENT ATTEMPT TO STEAL OUR MONEY UNLESS WE SIGNED AN ILLEGAL AND FRAUDULENT DOCUMENT THAT YOUR STAFF THRUST IN FROM OF ME FOR MY SIGNATURE WITHOUT BENEFIT OF SHOWING ME THE LANGUAGE IN THE DOCUMENT, YOU INVOLVED YOUR FIRM IN THIS FRAUD AND THEFT OF OUR \$100K.

Your firm's involvement was cemented with the FALSE STATEMENT: "...there was some agreement between you and Mr. Robinson that we were not a part of. He needed a document signed of on before funds could be released..."

HELLO!!! WHERE YOU BORN YESTERDAY? WHAT AGREEMENT? WHERE IS A COPY OF THE AGREEMENT SIGNED OFF BY ME? YOU FAILED TO DO DUE DILIGENCE AND THUS BECAME PART AND PARTY TO THE FRAUD.

So do you have our check for \$100K? If not, where is it?

I have asked the detective investigating the death of our daughter to track down our \$100K.

So bottom line: DOES YOUR FIRM HAVE OUR CHECK FOR \$100K as we were told by Attorney Hans Barcus? If not where is it?

I was told by Attorney Hans Barcus that the two checks were sent to him by your office, when I drove to Livingston to pick them up as agreed by Frank Robinson, and he told me that when I refused to sign the fraudulent attempt to steal our \$100K, he sent them back to your firm. Regardless of the legality of what your firm did or did not do, I was told that the checks were in your possession.

Frank Robinson, had no legal right to steal our \$100K and then use it to defraud us of the \$100K unless we signed an illegal and fraudulent document absolving him of any role in the murder of our daughter or the loss of around of a million dollars invested based on FRAUDULENT INDUCEMENT.

THERE WAS ZERO AGREEMENT BETWEEN ME AND FRANK ROBINSON TO WITHHOLD OUR \$100K. He told me multiple times that the checks would be ready for me to pick up and there were NO RESTRICTIONS as he had zero legal right to restrict you from giving us the check as promised, and you had ZERO legal right to not have presented the check to me when I came to claim the return of our \$100K. He then pretended that OUR money was HIS and that he was using our money to bribe/coerce us to sign the insane document in order to gain possession of our OWN MONEY. Then he was going to send us a 1099 so that we would have to pay income taxes on OUR OWN MONEY and then he would write off the \$100K as a business expense, thus defrauding the IRS.

When you played along with that fraud without question and thrust the document in front of me for my signature without being able to read it, unless I insisted and then when I insisted on a copy that took a very long time, it appears to me that you became an agent of theft and fraud and a potential IRS investigation.

So you may believe that you are not involved but think again.

I have been led to believe by Attorney Hans Barcus that he returned our \$100K and my wife's \$40,000 checks to you.

So please find out where our MISSING CHECK IS AND IF YOU HAVE IT IN YOUR POSSESSION AS I HAVE BEEN TOLD BY THE ATTORNEY THEN PLEASE DELIVER IT TO ME BY COURIER NLT tomorrow by 5 pm.. I will then sign a document that I FINALLY RECEIVED the \$100K check WITHOUT PROMISED INTEREST, absolving your firm of liability and also not holding your firm responsible in any libability for the failure to provide the promised interest payment

For some mysterious reason my wife's \$40K check showed up and she deposited it without any bogus or fraudulent restrictions.

Thanks.

You may wish to believe that you are not involved but by believing Frank's attempted fraud, and you believing his FRAUDULENT ATTEMPT TO STEAL OUR MONEY UNLESS WE SIGNED AN ILLEGAL AND FRAUDULENT DOCUMENT THAT YOUR STAFF THRUST IN FROM OF ME FOR MY SIGNATURE WITHOUT BENEFIT OF SHOWING ME THE LANGUAGE IN THE DOCUMENT, YOU INVOLVED YOUR FIRM IN THIS FRAUD AND THEFT OF OUR \$100K.

Your firm's involvement was cemented with the FALSE STATEMENT: "...there was some agreement between you and Mr. Robinson that we were not a part of. He needed a document signed of on before funds could be released..."

HELLO!!! WHERE YOU BORN YESTERDAY? WHAT AGREEMENT? WHERE IS A COPY OF THE AGREEMENT SIGNED OFF BY ME? YOU FAILED TO DO DUE DILIGENCE AND THUS BECAME PART AND PARTY TO THE FRAUD.

So do you have our check for \$100K? If not, where is it?

I have asked the detective investigating the death of our daughter to track down our \$100K.

So bottom line: DOES YOUR FIRM HAVE OUR CHECK FOR \$100K as we were told by Attorney Hans Barcus? If not where is it?

It is very disturbing that your firm allowed itself to get tangled up in a very serious attempt to defraud us out of our \$100K, much less the interest that was to have accompanied it as well as interest on the \$40K that my wife loaned for 30 days that turned out to be years instead of days.

- 1. Why would you return our \$100K to Frank without notice or our approval?
- 2. Who instructed you to return the two checks to Brian Cantrell? Certainly not I.
- 3. What legal authority did you rely on to destroy our check for \$100K.
- 4. What legal authority did you rely on to write a check with our \$100K to Frank?
- 5. Why would you contract with Brian Cantrell, who is our attorney to attempt for a second time for us to sign the insane release in order to have OUR OWN \$100K returned to us? How much did your firm offer to pay Cantrell to follow your instructions?
- 6. As the \$100K was NEVER Frank's and was ALWAYS ours, what legal authority did you rely on to GIVE our \$100K to Frank?

Your firm had no legal authority to attempt to coerce us into signing a totally insane document that would absolve Frank of any and all liabilities associated with the fraudulent inducement to loan his trailer factory \$650K cash plus interest that we are still paying on a \$300K note he fraudulently induced us to sign.

Mailing both checks to Frank was bad enough but destroying the check for our \$100K and GIVING our \$100K to Frank was a serious crime in my opinion.

Frank's attorney that allegedly drew up the "insane" release was NOT Brian Cantrell or Hans Barcus. I'm surprised that they allowed themselves to get tangled up in this mess.

Perhaps the detective who has been investigating the death of our daughter can also investigate the theft of our \$100K and the potential role of your firm in the theft.

We received both checks back a few weeks ago with the instruction that Sue could pick hers up and that the other check was the destroyed and rewritten to Frank.

There are indications that Karen Robinson may have written the signature in the name "Karen" on the questioned document, Q01-01.4.

There is no basis for an identification or elimination of Karen Robinson as having written the initials "KLR" on the questioned documents, Q01-01.1 – Q01-01.3.

As is routine in cases involving questioned correspondence, the questioned items were processed for latent writing impressions using the Electrostatic Detection Apparatus (ESDA). Latent writing impressions may be made when writing is performed on one sheet of paper and leaves indentations on the pages below. The ESDA lift provides a restoration or partial restoration of the original writing which created the impressions. Latent writing impressions were developed on Q01-01.1 – Q01-01.4. The latent writing impressions developed on Q01-01.1 – Q01-01.3 appear to be a heart symbol and the signature "Karen". These latent writing impressions are not superimposable with the heart symbol and signature "Karen" on Q01-01.4.

The questioned documents, Q01-01.1 – Q01-01.4, were viewed macroscopically and microscopically and with the aid of various light sources and filters using the Video Spectral Comparator (VSC). It appears that Q01-01.1 reacts differently than Q01-01.2 – Q01-01.4; however, this could occur during normal or legitimate document production. Investigative Leads and Requirements for Further Analysis:

A proper handwriting comparison requires, from any and all subjects, an extensive and contemporaneous representation of the same characters and words in the same style present in the questioned handwriting. Some of the letter combinations in the questioned writing were not present for comparison in the known writing you submitted.

If you would like to continue your investigation from a handwriting standpoint, it might be useful to obtain original known documents for comparison. These documents may include any signatures and initials written in the normal course of business, contemporaneous to the time of offense.

The latent writing impressions developed on some of the questioned documents did not appear to be representative of any of the original handwriting on these items; however, they could be from other documentation. Similar paper found in the victim's home or place of occupation can be submitted for further comparisons.

Disposition:

Texas Department of Public Safety driver license images with signatures were obtained by our laboratory from a

secure database source for handwriting examination purposes. These images will be returned to you along with the submitted evidence under a separate cover.

Copies of the ESDA lifts and VSC images will also be mailed to you under a separate cover for your review and interpretation.

Forensic Document Examination Laboratory Report Appendix

The following information is meant to provide definitions to the conclusions and opinions reached in handwriting comparison examinations reported by the Texas DPS Forensic Document Examination Section in accordance to the Scientific Working Group for Forensic Document Examination (SWGDOC) - Standard Terminology for Expressing Conclusions of Forensic Document Examiners.

<u>Identification</u> (definite conclusion of identity)-this is the highest degree of confidence expressed by document examiners in handwriting comparisons. The examiner has no reservations whatever, and although prohibited from using the word "fact," the examiner is certain, based on evidence contained in the handwriting, that the writer of the known material actually wrote the writing in question.

<u>Strong probability</u> (highly probable, very probable)-the evidence is very persuasive, yet some critical feature or quality is missing so that an identification is not in order; however, the examiner is virtually certain that the questioned and known writings were written by the same individual.

<u>Indications</u> (evidence to suggest)-a body of writing has few features which are of significance for handwriting comparison purposes, but those features are in agreement with another body of writing.

No conclusion/No basis for an identification or elimination (totally inconclusive, indeterminable)-this is the zero point of the confidence scale. It is used when there are significantly limiting factors, such as disguise in the questioned and/or known writing or a lack of comparable writing, and the examiner does not have even a leaning one way or another.

Indications did not-this carries the same weight as the indications term that is, it is a very weak opinion.

<u>Strong probability did not</u>-this carries the same weight as strong probability on the identification side of the scale; that is, the examiner is virtually certain that the questioned and known writings were not written by the same individual.

<u>Elimination</u>-this, like the definite conclusion of identity, is the highest degree of confidence expressed by the document examiner in handwriting comparisons. By using this expression the examiner denotes no doubt in his

There are indications that Karen Robinson may have written the signature in the name "Karen" on the questioned document, Q01-01.4.

There is no basis for an identification or elimination of Karen Robinson as having written the initials "KLR" on the questioned documents, Q01-01.1 - Q01-01.3.

As is routine in cases involving questioned correspondence, the questioned items were processed for latent writing impressions using the Electrostatic Detection Apparatus (ESDA). Latent writing impressions may be made when writing is performed on one sheet of paper and leaves indentations on the pages below. The ESDA lift provides a restoration or partial restoration of the original writing which created the impressions. Latent writing impressions were developed on Q01-01.1 – Q01-01.4. The latent writing impressions developed on Q01-01.1 – Q01-01.3 appear to be a heart symbol and the signature "Karen". These latent writing impressions are not superimposable with the heart symbol and signature "Karen" on Q01-01.4.

The questioned documents, Q01-01.1 – Q01-01.4, were viewed macroscopically and microscopically and with the aid of various light sources and filters using the Video Spectral Comparator (VSC). It appears that Q01-01.1 reacts differently than Q01-01.2 – Q01-01.4; however, this could occur during normal or legitimate document production. Investigative Leads and Requirements for Further Analysis:

A proper handwriting comparison requires, from any and all subjects, an extensive and contemporaneous representation of the same characters and words in the same style present in the questioned handwriting. Some of the letter combinations in the questioned writing were not present for comparison in the known writing you submitted.

If you would like to continue your investigation from a handwriting standpoint, it might be useful to obtain original known documents for comparison. These documents may include any signatures and initials written in the normal course of business, contemporaneous to the time of offense.

The latent writing impressions developed on some of the questioned documents did not appear to be poresentative of any of the original handwriting on these items; however, they could be from other documentation. Similar paper found in the victim's home or place of occupation can be submitted for further comparisons.

Disposition:

Texas Department of Public Safety driver license images with signatures were obtained by our laboratory from a

secure database source for handwriting examination purposes. These images will be returned to you along with the submitted evidence under a separate cover.

Copies of the ESDA lifts and VSC images will also be mailed to you under a separate cover for your review and interpretation.

It appears that Q01-01.1 reacts differently than Q01-01.2 - Q01-01.4; however, this could occur during normal or legitimate document production. Investigative Leads and Requirements for Further Analysis:

A proper handwriting comparison requires, from any and all subjects, an extensive and contemporaneous representation of the same characters and words in the same style present in the questioned handwriting. Some of the letter combinations in the questioned writing were not present for comparison in the known writing you submitted.

If you would like to continue your investigation from a handwriting standpoint, it might be useful to obtain original known documents for comparison. These documents may include any signatures and initials written in the normal course of business, contemporaneous to the time of offense.

The latent writing impressions developed on some of the questioned documents did not appear to be representative of any of the original handwriting on these items; however, they could be from other documentation. Similar paper found in the victim's home or place of occupation can be submitted for further comparisons.

Disposition:

secure database source for handwriting examination purposes. These images will be returned to you along with the submitted evidence under a separate cover.
